

Case Study of Synagogue Church of All Nations (SCOAN) Sudden Momentary Vertical Collapsed 6 Storey Guest House Building: Accompanied By Turbulent High Rising Windy Storm Erupting From Its Foundation With Flying Rubble Causing The Death of 116 People.

Engr. Michael Ola Bolaji

ABSTRACT---THIS PAPER INTENDED TO SHOW, WHY THE VERDICT OF THE JUDICIAL INVESTIGATION PANEL SET UP BY LAGOS STATE; SEEMS INCONCLUSIVE AND ITS RECOMMENDATIONS MISLEADING. THIS IS, BECAUSE, IT FAILED TO RECOMMEND THAT FURTHER INVESTIGATION, SHOULD BE CARRIED OUT BY RELEVANT EXPERTS ACCORDINGLY RESPECTIVELY; IN ORDER TO UNRAVEL THE MYSTERIES, SURROUNDING TWO CRUCIAL EVIDENCES; THAT EMERGED DURING THE 10 MONTHS PERIOD, USED TO CARRY OUT ITS ASSIGNMENT. THE EVIDENCE DERIVED FROM THE TWO INSTALLED CCTV CAMERAS FOOTAGES, ONE WAS INSTALLED FACING UP, AND FOCUSING THE TOP HIGHEST PART OF THE BUILDING, WHILE THE SECOND WAS INSTALLED, FACING AND FOCUSING THE BOTTOM LOWER PART OF THE BUILDING. THE CCTV CAMERA FOCUSING THE TOP CAPTURED AND SHOW THE MILITARY AIRCRAFT WHICH FLEW OVER THE COLLAPSED BUILDING AT IRREGULAR INTERVALS FOUR TIMES BETWEEN THE HOURS OF 11.30 AM AND 11.54 AM: A PERIOD THAT COINCIDED WITH THE REPORTED PERIOD, OF THE REPORTED MISSING MILITARY AIRCRAFT, THAT TOOK OFF FROM YOLA ON THE FATEFUL DATE OF FRIDAY SEPTEMBER 12, 2014. WHILE THE CCTV CAMERA, INSTALLED FACING AND FOCUSING, THE BOTTOM OF THE BUILDING; CAPTURED THE TURBULENT WINDY STORM, THAT ERUPTED AT THE FOUNDATION LEVEL AND ITS GROUND FLOOR; REDUCING EVERYTHING IN ITS PATH TO RUBBLE; WITH THE BUILDING COLLAPSING VERTICALLY ON ITS BASE, JUST LIKE A PACK OF CARDS; MOMENTARILY, FLOOR BY FLOOR, IN A TWINKLE OF EYES. HENCE, THE NATURE, MANNER AND WAY; THAT THE BUILDING COLLAPSED, WAS RESPONSIBLE FOR THE EVIDENCE OF THE WEAPON AND EXPLOSIVE EXPERT, CONCERNING THE UTILIZATION OF INFRASOUND/INFRASONIC WEAPON FIRED RADIATION AT BETWEEN 0>20 HZ, WITHIN THE ACOUSTIC SPECTRUM, AND WITHIN AN APPROPRIATE RANGE OF AN ALTITUDE OF 100M - 1,000M; THAT WILL HAVE DEVASTATING DISASTROUS DESTRUCTIVE EFFECT, ON MASSIVE CONCRETE STRUCTURE, WITHOUT BEING AUDIBLE AND VISIBLE, WHILE IT IS ONLY ITS EFFECT THAT WILL BE PHYSICAL AND VISIBLE: WHICH MADE THE WEAPON AND EXPLOSIVE EXPERT, CONCLUDED THAT INFRASONIC WEAPON, WAS USED TO ATTACK THE BUILDING AT RESONANCE, THAT RESULTED TO THE COLLAPSED OF THE SCOAN BUILDING.

Keywords: CCTV Cameras Footage, Collapsed Building, Corona's Inquest Investigation Verdict, Fired Radiation, Inaudible, Silent but Deadly, Infrasound or Infrasonic Weapon, Massive Concrete Structure, Missing Military Aircraft, Synagogue Church Of All Nations, resonance, vibration, tragic incident, Vindictive Verdict, Prophet T. B. Joshua, Explosive and Weapon Expert, Chief Magistrate Oyetade Komolafe.

INTRODUCTION

This case study concerns the tragic event, of a collapsed building, accompanied with heavy causality; involving foreign national visitors, mostly from South Africa. The calamitous incident occurred at Ikotun Egbe, a suburb of Lagos, within the Alimoso Local Government Area, of Lagos State; on Friday September 12, 2014. On the fateful day, a mysterious Air Craft flew over an already completed 6 floors storey building of Synagogue Church Of All Nations (SCOAN), which is a Guest House Building, four times, after which, it did not come back again. However, few minutes after the Aircraft fourth and final flight, the building collapsed suddenly, momentarily and vertically, floor by floor, on its basement; accompanied by very Strong winds, dusty storm, while the concrete, block work and

the plastering component of the building turned to rubble, amidst flying objects in all directions, as shown later in the two CCTV Cameras' Footage, installed over watching the building. Amazingly, on the same day, Friday September 12, 2014; an Air Force Plane on a bombing mission got missing. The Military disseminated and circulated a report to all the mass media in the country, emanating from the Director of Defence Information, Maj.-Gen. Chris Olukolade, as he stated in an electronic mail, on Sunday September 14, 2014; that a jet marked NAF 466, disappeared from the radar on Friday. He explained that the plane with only two crew members on board "left Yola at about 10.45 am on September 12, 2014 on a routine operational mission and was expected back by 12 noon same day". His statement read in part, since then, all effort to establish contact with the aircraft have not yielded any positive result" [1],[2],[3],[4],[5]. The coincidences concerning the missing of an Air Force plane and the mysterious plane that

flew over the collapsed SCOAN building is an intrigue to be resolved, and a jigsaw puzzle to be solved; if safety and security of Nigerians and other inhabitants of the country as a whole; and Nigeria as a Nation, is of paramount importance to the Nigerian Government.

I considered as a National Disaster and Calamity, the tragic incident of the Synagogue Church Of All Nations (SCOAN) Collapsed 6 Storey Guest House Building, that occurred on Friday September 12, 2014 at Ikotun Egbe for the following reasons:

- (i) The death of 116 people of South Africa, Nigeria and other Nationals
- (ii) The nature, manner and way the building collapsed
- (iii) The mysterious air craft that flew over the building 4 times at irregular intervals as captured or recorded by the CCTV and shown by the CCTV Footage
- (iv) The embarrassment the calamitous event caused to the Founder, Church, our Nation and other nations of the world

Promptly, the Lagos State Government inaugurated the Coroner's Inquest under the State Coroner's System Law No. 7 of 2007 to investigate the cause and circumstances resulting in the death of 116 people following the building collapse on September 12, 2014.

Chief Magistrate Oyetade Komolafe after 10 months of investigation gave the panel's verdict. However, after I read the contents of the verdict, as an Electrical Engineer, who have a clear knowledge about/of what an "infrasonic weapon" is all about, the havoc it can wreck and its characteristics and killing, devastating, disastrous, calamitous and destructive effect.

Consequently, I felt that the Chief Magistrate dismissal of the evidence or testimony of the weapon and explosives expert, a researcher, scientist and presently a postgraduate student of explosives and Material Sciences with the Nigerian Defence Academy; who has 6 years background work experience with the Defence Industry Corporation of Nigeria; after graduating from University of Maiduguri with a BSc degree in Chemistry did not show that a thorough and intensive investigation has been done. As you read my write up on the analysis of her verdict, other pin pointed or raised lapses will become obvious that will show that the cause of the tragic incident was not addressed enough.

Why anyone should want to carry out such atrocity is not clear? Although, if the man of God in Synagogue, Senior Prophet T.B.Joshua life, and his progressive development, and the SCOAN growth, as a package is considered, as can be seen in the following stated events in descending order; concerning his brief summary historical background and from his recent and past, following activities: that entail his visits to Israel; South Korea; Mexico; Colombia; and the video clip on his humble

background: [6],[7],[8],[9],[10],[11],[12]; the progressive changes and metamorphosis that his life passed through then; and, the reason(s) of initial challenges he had; beginning from jealousy and envy initially, by his counterpart; that grew in Arithmetical Progression; but, later grew astronomically, to hatred, in magnitude, in Geometrical Progression; as God continue to use him mightily and wonderfully.

His tribulation and the persecution, was to include and involve, many prominent men of God, internationally, generally; and in Nigeria in particular; poisoning the mind of their large followership against Prophet T.B. Joshua and his Ministry.

Take for instance, the Christian Association of Nigeria (CAN), which supposed to be an umbrella for all the Churches in Nigeria, and which should include SCOAN, of which Prophet T.B.Joshua is the earthly founder and General Overseer. As members of the same Body of Christ, where our Lord and Saviour, Jesus Christ is the Head, and the Churches, the Members of the Body of Christ; and also Pentecostal Fellowship of Nigeria (PFN), which supposed to be the primary constituency of SCOAN, as CAN is consisted of Six Main Associated Groups; of which PFN is one of them. Surprisingly in 2009, among those Christian Leaders who were castigating and questioning his calling and anointing were: Pastor Enoch Adejare Adeboye; Pastor Chris Okotie; Pastor Oritsejafor, Pastor Tunde Bakare, all leaders of CAN and the numerous members of CAN and PFN nationwide: [13],[14],[15],[141]. But as for Senior Prophet Joshua; he believes that, one with God is a majority. Hence, the greetings among members of SCOAN Worldwide, is "Emmanuel!" with "God with us" response. Matthew 1: 23.

Most unfortunately, SCOAN was not recognized or counted as a member; by the leadership of the two prominent; Christian Organizations, as stated above. This was just because they could not understand, the way the Holy Ghost was using him, hence, they were querying his calling and mentorship; forgetting that in the Holy Bible, Prophet Elijah has no mentor, although he was a mentor to Prophet Elisa; and also, famous and prominent Prophets, such as Moses, Jeremiah, Daniel, Ezekiel and Isaiah; each had no mentor, yet they were true men of God, mentored by Jesus Christ and His Power of Holy Ghost; such also was the case of Senior Prophet T.B. Joshua, as attested to in his, T.B. Joshua documentary. But one common thing amongst them versus all others is persecution, castigation and condemnation. After all, it was only Prophet Micaiah with God on his side; against 400 Prophets and Men of God, King Ahab the leader, Government of Israel and the nation of Israel: 1 King 22: 1 – 28.

But in Prophet T.B. Joshua's case; one is bound to ask, why has the hatred, tribulation and persecution now involved, non-Christians, Security and High Rank Military Personnel and Government Officials, who were able to utilized an Aircraft, carrying Infrasonic Weapon of destruction, and were able to

manipulate dissemination of Information, at the DHQ; were ready to waist the life of two pilots, who they claimed at the Corona Inquest Investigating Panel Sitting, were on Training Programme Schedule, and who were given airspace approval by the Nigerian Airspace Management Agency (NAMA) Personnel, that testified that the altitude of the Air Force Plane when it was flying over SCOAN Building was 1,100feet; which he was helped by Chief Magistrate Oyetade Komolafe as 103 floors of an high rising building?

Indeed, she is an erudite scholar mathematician, as also being a knowledgeable Chief Judicial Civil Officer that qualified her to be chosen to lead, this very crucial panel. Of which its verdict and recommendations were vindictive, unjust, too harsh, punitive and partial. All these will be proved consequently in this paper. This is because, the verdict has now taken another dimension, other than finding the cause, of the tragic incident; as mandated by the Lagos State Government that constituted it; in order to forestall similar occurrence(s) in the future.

Which is the crucial aspect that I wished to examine and try to find an answer to; in this paper: most especially, when the two abnormal conditions and situations, that occurred as stated above, in the abstract; are taken into consideration.

Consequently, the case study of the tragic, calamitous and destructive incident, of the collapsed 6 floors guest house building, of Synagogue Church Of All Nations (SCOAN), that caused the death of 116 people; and the analysis of Chief Magistrate Oyetade Komolafe Coroner's Inquest Investigation Indictment and Biased Verdict; of the tragic occurrence, becomes imperative; because of the intentional decision of the panel members, to jettison the two crucial phenomena of important significance, that could have enable the panel members, arrived at a more justifiable verdict, and assisted them to put forward to the Government of Lagos State, worthy security and safety inclined recommendations; that could have suggested a further investigation, due to emergence of new evidences; of a scientific, modern sophisticated; scientific and technological invention; such as Infrasound or Infrasonic weapon, that could fire radiation at a particular resonance, that can cause the vibration of the contents with concrete structure; and collapse of a massive concrete structure; based on acoustic spectrum of ranges between 0>20 Hz. With lethal latent energy, which is silent but deadly, this is because; only its effect becomes noticeable physically: [16],[17],[18],[19],[20]. Instead of defending un-defendable, and lost focus on finding the truth.

Therefore, the conduct of the further investigation should have been recommended by the Judicial Corona Inquest Panel to Lagos State Government; which should have been recommended, that, it should be conducted by invited Scientific Researchers, or Inventors of similar devices of national security warfare nature and type; or weapon, explosive and material science experts, from the Advanced Country such as the US,

China, Russia or Israel.

And, the CCTV Cameras which the Almighty God through the Power of Holy Ghost, in the revelation and vision given to His servant, Prophet T.B.Joshua; directed by him to be installed, to capture the crime, should be given to the experts, who should be scientific researchers, in weapon and warfare devices to study; and the site be visited by these experts, for the foundations and reinforced remaining concrete structures to be examined and investigated also, by these unbiased open minded experts; in order to help both SCOAN and Lagos State Government in general, to get to the root cause(s) of the tragic incident; and Nigeria also as a country, to learn a useful lesson in endeavoring to stop looking for scape goat(s); whenever such a calamitous event occurred. Most especially, our own home grown and trained experts; from Established legally created Bodies, Organizations, Agencies or Societies such as COREN, NSE, NIOB should always, henceforth, also allowed their relevant, experienced, best practitioners in the required relevant engineering field(s), to be those that would be given the assignment that involved, and is of such a calamitous nature.

We should stop a kind of vendetta or persecution for religion and even denomination sake; and, rather do such assignment, without any hidden agenda; as it seemed in this case, involving Prophet T.B. Joshua SCOAN Guest House Building Collapsed Tragic Incident judicial investigation; in which the judicial panel of investigation happened to be led by Chief Magistrate Oyetade Komolafe, who throughout the sitting of her panel; obviously became antagonistically confrontational and vehemently opposing any view; in all its ramification, against and of any witness that its evidence, seems to favour Prophet T.B. Joshua and SCOAN. In fact, she is only being human, on the part of her hostility and also her pronouncement. After all, God has the following conception about human being; as the Holy Bible in Genesis 6: 5 – 7, said; and I quote from Holy Bible NLT: 5. "The Lord observed the extent of human wickedness on the earth, and he saw that everything they thought or imagined was consistently and totally evil. 6. "So the Lord was sorry He had ever made them and put them on the earth. It broke His heart". End of quote.

Moreover, it should not be surprising; Chief Magistrate Oyetade Komolafe being one of the Christians, whose mind must have been poisoned by the utterances and directive or instruction of Redeem Church General Overseer, since 2009; Pastor Enoch Adeboye, who was one of the CAN and PFN leaders, who had vehemently spoken publicly against Prophet T.B. Joshua and his ministry, in the recent past. And, in whom many Christians in Nigeria believed so much. Any expectation about impartial and objectivity in her judicial inquest panel verdict, aiming at the true and real cause of the tragic incident is a foregone conclusion.

So also, the over exhibited bias behaviour of the Lagos State principal witness; Mr. Olutoyin Adedamola Ayinde, the immediate past Commissioner of Lagos State Government Urban Development and Physical Planning Ministry; a Moslem, and a representative of Lagos State Governor, Lawyer Babatunde Fashola, also a Moslem, who was hell bent on demolition of SCOAN on the unsubstantiated argument of structural defects, as the cause of SCOAN Guest House Building Collapse; should be expected. His statement in court on June 21, 2016 corroborated the allegation. As posted by: starconnect on the internet on June 21, 2016, under the bogusly printed heading:

"How Tb Joshua's Synagogue Church Collapsed - Ex Commissioner" And I quote from paragraph 11 & 12

"Earlier, Ayinde had said that the collapsed building had no valid approval. According to him, a five storey building was approved for the auditorium but that SCOAN engineers were in the process of constructing an eight storey structure when it collapsed.

"He said that what SCOAN did constituted a breach, thus rendering the earlier approval invalid and that the punishment was demolition under physical planning laws of Lagos State." End of quote".

Initially, the entire world were made to believe, that first and foremost; there was no permit got by SCOAN: later it was turned to, approval was given for only two storey building; now it has become that, a five storey building was approved. Just imagine the inconsistencies, in the statements of the principal witness. Despite that the structure show physically an already completed building over which the military aircraft made its four flights, Ayinde alleged that SCOAN engineers were in the process of constructing an eight storey structure when it collapsed. And, his verdict was "Demolition".

Meanwhile, they totally discarded, the newly introduced evidences of the Military Air Craft, that flew within 24 minutes, and permitted by National Air Space Management Agency (NAMA), as testified by its personnel; on what the Military Witness, said was a Training Schedule Programme; which should have made the panel members, and their leader, Chief Magistrate Oyetade Komolafe looked at the possibility, of utilization of the Silent and Deadly Infrasonic Weapon generator to fire Radiations at Resonance within the range of sound spectrum of 0>20 Hz; to cause within the Massive Concrete Structure Components a vibration and energy enough; to crumble the building momentarily, and also vertically, floor by floor, on its base; which did not allow for the possibility of many survivals, and resulted to the heavy casualties, with no any allowance or opportunity, given for a possibility of savaging any of the properties within the building.

As testified by the explosive and weapon expert: It should be realized that, if it was the occupiers that were the target; and not the building itself; then, the Infrasonic Weapon Radiation Firing would have being contained to, between the sound spectrum range of 0>7 Hz; and, only the Human Being occupying the building at that time will be Biologically affected; and the building will not be fired with enough radiation to possess the required necessary energy through the back and forth sound waves peaks and troughs bouncing in a medium line up, and reinforce each other for producing a vibration enough, to crumble the building concrete structure, with every properties within it, and the concrete structures, turning into rubles suddenly in moments, after the last flight of flights of a duration of just 24 minutes; that the military aircraft did their training and testing; of the efficacy and disastrous effect; of their newly purchased and acquired Infrasonic or Infrasonic Weapon.

And to cover up their track, the declared missing military aircraft, did not returned safely to its base in Yola, the Adamawa State Capital; but was reported later; to have crashed within the same Adamawa State, where it took off for bombing of Boko Haram locations in Bornu State.

Amazingly, there was no evidence to show that actually, the military aircraft was cited at all in Bornu State. And the NAMA officer was not asked or interrogated further, by the members of the panel to inform them, from where was the Military Aircraft coming, when its pilot asked for airspace permission.

Moreover, when the persecution of a man of God by the society in general; and by the men of God among themselves in particular; is taken into consideration; that the earthly founder and General Overseer of SCOAN, Prophet T.B.Joshua is the most controversial and persecuted man of God, in Nigeria today; is not an overstatement. On the Internet, there are website links specifically created; that will obviously show various distortion versions, of Prophet T.B.Joshua sermons, prophecies, teachings; and even blatant lies; against the man of God, in their video clips and writings; that accompanied some of the videos.

These acts led to the deduced reason for the initial envy and jealousy of him; that culminate to total hatred, which led to his persecution and tribulation. For this purpose, let us just consider the Tb Joshua Watch (A comprehensive resource on TB Joshua and SCOAN); [21]. It is a dedicated website, consisting of 43 pages; created purposely, for campaign of calumny, to persecute, malign, vilify Prophet T.B Joshua; and distort all the wonderful work of the man of God done in the past, and those being done presently in Jesus Christ name; through the God full Anointing of the Power of Holy Ghost; backed by the Power and Authority of God, the Father; and manifested by the Holy Spirit by the calling of Jesus Christ name; through the lips and, by His servant, Prophet T.B.Joshua.

Hence, to expose the diabolical aim of the owner and creator of "tbjoshua watch website" References have been made to wonderful, miracles, deliverances, done with Jesus Christ name, uttered from the lips of Prophet T.B. Joshua; including amazing revelations, prophecies, and reconciliations; that the tbjoshua watch owner and creator cannot denied or debunked. Can this evidence of an amazing miracle, of the four years old boy, be denied or claimed as an arrangement, in this video clip? Or can over flowing blood gushing out unstoppable due to broken or damaged artery problem be stage managed [22],[23].

Coupled with the above campaign of calumny, is the issue of series of initial Boko Haram failed attempted bombing espionage, with the main Auditorium of the Cathedral of SCOAN, as the target; which were carried out in their previous attempts; by those who led many successful bombing of Churches, and later military Bases, but failed woefully in their attempted bombing visits paid to SCOAN; while their leader who was arrested by the Holy Ghost, came into the church to appeal to the prophet to set him free, as he made confessions of their former successful outings and operations, which were led by him: [24],[25],[26].

There after his deliverance took place that day. So also, one of the Boko Haram member, Mr. Onoja's letter of confession of being a member of Boko Haram, and one of those that came to SCOAN with bomb explosives, with his photograph printed on one of the two sheets, was read to the congregation in a Sunday Worship Service by Prophet T.B. Joshua: [27].

God can allow His dedicated, obedient, loyal servant to be tempted by Satan as in the case of Job in the Holy Bible. And as the Almighty God proved in the case of the Herod ordered killing of Children of two years and below, when New Born Baby Jesus Christ was Herod's target, and, that was after two years when the three wise men and the Astrologers told King Herod of the birth of the King Jesus Christ. Why did it take King Herod two years before he remembered the Birth of the New King of the Jews? Can God the Creator, be queried by His creatures? Whereas Baby Jesus Christ; had already been, immediately taken to Egypt, where He was with His earthly parent for the two years duration. Thousands or Millions of innocent Babies were killed throughout the Province of Judea and the City of David, Bethlehem.

God that instructed His servant, Prophet T.B. Joshua to install two CCTV Cameras to be overlooking the Guest House Collapsed Building, if it is God's Will, He could have told him to evacuate the occupiers of the Building, when he came back to the Church from the Mountain, where he went to be in communication with God. As there were enough time, to order the evacuation of the occupants of the Building, at the directive of the man of God; while he was back in the church.

Therefore, for a case study of this nature; it becomes very necessary, to present a balance, informative and equally justifiable factual and objective views and findings; relating to the entire episode before and after; including historical background of the considered principal actor, Prophet T.B. Joshua, and his God guided and endowed, full Holy Ghost Anointing Missionary, and Visionary Faith Journey; starting from the first worship building, a makeshift shed:[28],[29],[30]. Unto the last and present worship building, the SCOAN Cathedral: [31],[32],[33]. T.B. Joshua Bibliography as compiled in Wikipedia.

Various Ministries of Senior Prophet T.B. Joshua Are as follows: Starting with His Ministry of giving and charity: [34],[35],[36],[37],[38],[39],[40],[41],[42],[43],[44],[45].

His Ministry of reconciliation: [46],[47],[48],[49],[50].

His Principal Ministry of Preaching and Spreading the Gospel of Jesus Christ through Emmanuel TV; You Tube; Facebook; Twitter; Google +; Instagram to the entire world and nations.

His various held Crusades, in various countries of the world; from 2004 to 2016: [51],[52],[53],[54],[55],[56],[57],[58],[59],[60],[61][62],[63],[64],[65],[66],[67].

Signs and Wonders that follows, such as wonderful: Miracles: [68],[69],[70],[71],[72],[73],[74],[75],[76],[77],[78],[79],[80],[81],[82].

Deliverances: [83],[84],[85],[86],[87],[88],[89],[90],[91],[92].

Prophecies: [93],[94],[95],[96],[97],[98],[99],[100],[101],[102].

Teaching & Sermon: [103],[104],[105],[106].

All these happenings, are in accordance with the Biblical injunction, and the prophesy of our Lord and Saviour, Jesus Christ; in the Book of Gospel according to Matthew 24: 14; And I quote from KJV of the Holy Bible "And this "gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come" End of quote. So also, Jesus Christ teaching in John 14: 12 – 14; And I quote: (Verse 12). "Verily, verily, I say unto you. He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto the Father, (Verse 13). "And whatsoever ye shall ask in my name, that I will do, that the Father may be glorified in the Son.(Verse 14). "If ye shall ask any thing in my name, I will do it". End of quote. And in Matthew 13: 57 & 58; And I quote: (Verse 57). "And they were offended in Him. But Jesus said unto them. A prophet is not without honour, save in his own country and his own home. (Verse 58) "And He did not many mighty works there because of their unbelief". End of quote.

Also, according to Prophet T. B. Joshua teaching: In the Spirit or Spiritual-wise, Believing is Possession: [107],[108]; You have to believe first, before you can possess or receive anything from Almighty God, the Father, through Emmanuel in Matthew 1: 23, the Mighty God in Isaiah 9: 6, the Son of God in John 3: 16; Jesus Christ, our Lord and Saviour in accordance with above quoted verses in John 14: 12 – 14. Whereas, in Science, Secular-wise, the saying is "Seeing is Believing"; that is, you have to see

whatever you have to believe in, first. This is contrary, to the Spiritual way of life on which Faith depends: [109],[110],[111]; concerning false and true teaching: "By their fruit ye shall know them" so said Jesus Christ in Matthew 12: 33; Luke 6: 43 – 45; Matthew 7: 15 – 20:

Consequently, the unpardonable sin that Men of God such as Apostles, Bishops, Pastors, Evangelists and Prophets are committing presently; is that of ascribing the signs and wonders, backed by God's Power and Authority miracles of healing, deliverances, and prophesies etc. being and been performed by Prophet T.B Joshua, through the Holy Ghost Power of resurrection; in the mighty and precious name of Jesus Christ, to Satan and demonic power; as Jesus said in the case of the Pharisees and Sadducees, when they blaspheme the Holy Spirit; and committed the unpardonable sin, by saying that Jesus Christ was using Beelzebub, the leader of demonic kingdom; in performing the signs and wonders, and the amazing miracles and deliverances, in Matthew 12: 22 – 37 and Mark 3: 22 – 29.

The same way that the Pharisees, Sadducees and the Scribes did against Jesus Christ, our Lord and Saviour; to stop His Ministry and Gospel; thinking that they were fighting for God; is the same way the owner and creator of tbjoshua watch is tirelessly using all his knowledge, effort, through the website created by him, to bring down the man of God in the Synagogue; the Servant of God Almighty.

For instance under the heading: 13 thoughts on "Welcome to TB Joshua watch!" It started with the reason why PFN refused to accept TB Joshua and SCOAN as a member; as if that is the criterion, to be a candidate of God's Heavenly Kingdom. And in the website; Pastor Enoch Adeboye, the General Overseer of the Redeem Church was said to be one of the PFN member, who stated that he can never worship in TB Joshua Church; this also is not a criterion to get God's approval for His Servant, Prophet T. B. Joshua Holy Ghost Full Anointing. What is certain is that darkness can never overcome light.

When the disciples were undergoing intense persecution in the hand of the Pharisees and the Council; Gamaliel advised them in Acts 5: 34 – 39; I quote from verse 38 "And now I say to you, keep away from these men and let them alone; for if this plan or this work is of men it will come to nothing; and verse 39 "But if it is of God, you cannot overthrow it ---lest you even be found to fight against God." End of quote. Matthew 7: 1 – 5 Verse 1 "Judge not, that you be not judged. And verse 5 "Hypocrite! First remove the plank from your own eye, and then you will see clearly to remove the speck from your brother's eye" End of quote.

And the reality that surrounds the sad calamitous occurrence of Friday September 12, 2014; the Aircraft flight over the building before its eventual collapse: [112]. Which the weapon and explosive expert ascribed to the application of Infrasonic or

Infrasonic weapon; when radiation at (0>20) Hz Frequency was fired at the building and caused vibration at resonance throughout the component of the entire building structure. In 1957, Dr. Vladimir Gavreau: and his team of Researchers and Scientists accidentally made the discovery, of this silent but deadly weapon;

However, presently, the world power countries USA, Russia and China have invented, built and produced from the Ultrasonic or Ultrasound Frequency Ranges, Hypersonic Missiles: [113],[114],[115],[116]; which have visible, audible characteristics; different from Infrasonic characteristics of being invisible, inaudible but its effect deadly biologically to Homosapien, at between the range of 3 Hz to 7 Hz;

But, it is catastrophic and destructive physically to massive concrete structure at higher than 7 Hz and lower than 20 Hz (0>20 Hz): as it happened to the SCOAN Guest House Building after the Military Air Force Plane flew over it, within 24 minutes for four irregular times; claimed by the Military as training schedule programme time and duration: while its altitude was said to be 1,100feet (335meter) by the NAMA personnel and estimated as 103floors by Chief Magistrate Oyetade Komolafe, the learned civil judicial officer; whereas, speed of sound in iron is 5,120meter/second, so, at an altitude of 5,120meter an aircraft within 1second can fire an infrasonic radiation with Infrasonic weapon at the right frequency to cause enough energy that will crumble a massive concrete structure and turned it to rubble with flying debris; at the required resonance: [117],[118],[119]; although, at higher than 20 Hz; it becomes audible, visible, obvious and apparent to human being perspective; according to Robert A. Freitas Jr. of Xenology Research Institute, Sacramento, CA, 1979: [120]; he said, and I quote: "The frequency spectrum for sound is chauvinistically, but conveniently, divided into three general regions—the infrasonic, the sonic, and the ultrasonic. Infrasonic radiation ranges from about 0.001 Hz (cycles per second) for some seismic disturbances up to about 20 Hz. The sonic range, the bounds of human hearing, extends from 20 Hz on up to roughly 20 KHz; Then the ultrasonic takes over, reaching from 20 KHz up to 1 MHz (one million cycles per second) and beyond": [121],[122]. End of quote.

Therefore, the nature, way and manner, of the momentary vertical collapse, of the SCOAN Guest House Building, after the last flight of the aircraft, made an Expert on Un-identifying Flying Object (UFO); Researcher and Scientist, Greg Odogwu wrote and caption his write up, written on Thursday September 2014 thus: "Did UFOs destroy TB Joshua's building": [123].

Hence, to enable a more lucid knowledge and understanding of the unpleasant incident, and aid a justifiable appropriate determination and arrival at its actual cause; through a thorough analysis of the calamity, the vindictive and bias verdict and

recommendations, of the corona inquest judicial panel, led by Chief Magistrate Oyetade Komolafe; who deviated from the Lagos State Mandate of finding or determining the "Cause" with a purpose to make recommendations, that will prevent the repeat of such dastard tragic event in future, within the State; instead, she and her panel members, decided to look for scape goat; to the extent that, the Chief Magistrate by herself, even helped the NAMA personnel, to convert his given altitude of 1,100 feet, of the aircraft above the building; by determining the actual altitude; at which the military aircraft flew over the building, which she calculated to be 103 floors above the collapsed building; just to justify her panel vindictive verdict.

Whereas, none of them, the judiciary members, including the NAMA witness; was in the aircraft with the pilots, to know the altitude being put at either 1,100feet or 103 floors; and neither were they at the scene of the incident when it happened. That was why the crime investigators from the Nigeria Police suggested "Sabotage". Hence Chief Magistrate Oyetade Komolafe jettisoned and discarded, and did not even refer to the Police evidence in her indictment and vindictive verdict. The Police witness was one of the 24 witnesses, out of the total 32 witnesses which gave testimonies, that their evidences were not considered at all. But FBI or CIA evidences will never be treated with ignominy in USA.

The similarity and difference in Multiple Floors Storey Building, that Collapse due to Infrasonic Fired Radiation, through Infrasound Weapon, as in SCOAN Guest House Building in Lagos: [124]; and the one due to the combination of Flooding, and weak structure as in Kenya: [125]; and Collapse Building due to Control Building Demolition: [126]; and Collapse Building due to Structural Failure only: [127]; will be consider in this case study paper; this will enable the confirmation that the SCOAN Building Collapse was due to utilization of Infrasonic weapon; through the Military Aircraft that flew over the Building for only 24 minutes.

It is imperative at this juncture, to establish the veracity of whether the Nigeria Military personnel have any knowledge about the existence and previous training or/and usage of infrasonic weapon based on infrasound acoustic spectrum. Now, it is pleasantly wonderful although amazingly, to learn that Nigeria military personnel were sent abroad for training on it, and even used it back at home during the civil war at the 3MCO according to the investigation carried out by Daily Times: [128].

The Daily Times investigational enquiry led to all the experts and scientists, in their comments consensually concluding, that indeed, it is only infrasonic weapon; that can collapse the SCOAN Building the way it collapsed [128]: although, some of them that were interviewed by the Daily Times Investigation crew, were afraid that if it is Boko Haram Militants, that were in possession of such destructive weapon, and versatile also on its utilization; then it will be disastrous and of a grave

consequences for safety and the security in this country. But, thanks to God Almighty, that the aircraft that flew over the collapsed building, to do the dastard cruel job, is from Nigeria Military, the Air Force to be specific; which was claimed to be on routine training Programme Schedule; and not from Boko Haram Militant.

Consequently, if the involvement of the Military is thoroughly investigated, and not swept under the carpet like the case of the letter bomb that gruesomely killed Dele Giwa, also through the Military involvement; then the safety and security of Nigerians and all the inhabitants of the country will be guaranteed, and, not be in jeopardy now and in future.

At this juncture, it is also important and become necessary, to consider who Prophet T.B. Joshua is; and why he has suddenly become the most controversial, most persecuted and most vilified man of God in Nigeria in particular, and in the entire world in general; in the past and presently. Although, now, the tempo of his tribulation has greatly subsided, and even become an attribute of highly negligible few, most especially in other nations of the world, as evident in the great multitude of viewers of Emmanuel TV Channel Programme every day; and the attendance of his various held crusades since 2005 till now, 2016. Because of the multitude of believers coming to accept Christ Jesus as their Lord and Saviour, he and his ministry are highly susceptible to be target of attack by those who believed in Jihad Moslem waged war; and are bent on Islamization of the country: [129].

Brief History: In 1989, Prophet T. B. Joshua built his first church, at Agodo, Egbe; a suburb of Lagos; as a shed without any wall; the second was built when the first was destroyed by flood; and in 1992 the third church was built at the same area with planks. However, during a downpour of rain, the entire area was flooded. Thereafter, God directed him to relocate to a more spacious area, the present location of the Synagogue Church of All Nations, where the fourth church was built with blocks, in 1994. Then, in 2002, the Synagogue Church of All Nations (SCOAN) Cathedral was built as the fifth church; at its present location, No.1 Segun Irefn Street, Ikotun Egbe, Alimoso Local Government, Ikeja, Lagos - State, Nigeria. The rapid growth and development of SCOAN and Spiritual, Social and physical metamorphosis, that the church transformation passed through within a space of thirteen (13) years, from a shed church building with few members; to a cathedral church building, with multitude worshipers from various countries: was astonishing to all the people in general, and to his counterpart men of God; the Pastors, Evangelists, Prophets and Bishops constituting the leaders and elders, in Christendom in particular.

Fulfillment of Prophecy Concerning Future Extensive Large Crusades: In affirmative confirmation of Prophet T.B.Joshua prophecy, to the small audience, consisting mainly of his very scanty church members and followers; at his first crusade held

in 1989: at Ikare, Akoko, in Ondo State; where he prophesied that, although they were few then, and the crusade is a small one, with few people in attendance: but very soon the crusade will become a big time crusade, with multitude of people from various nations; that will be in attendance. Hence, the crusades held by him between 2004 to 2016: a spate of twelfth (12) years, were a huge success; both spiritually and physically, in term of signs and wonders; miracles of healing and deliverances; including accurate specific prophetic messages to individuals as God directed his servant, the man of God, Prophet T.B.Joshua.

Locally and Internationally, several other notable, popular, famous men of God; who are older than Prophet T. B. Joshua gave, either prophecy or testimony; of the raising in Nigeria, a powerful prophet of God: who will be filled with Holy Spirit and great anointing from God; backed by God's Power and Authority; with signs and wonders; as evident in wonderful miracles, deliverances, healings and break through, accompanied by accurate revelations through prophecies and prophetic messages. Below are some of the testimonies of some of the other Men Of God concerning Prophet T.B.Joshua Calling and Anointing:

Prophet Adewole, a great man of God whose church was located in Ibadan, the Capital of the old Western Region of Nigeria said, and I quote from the Streetwise Magazine, Nigeria – Issue 2 Nigeria News | Thu, 15 Oct 2009: [130]

“T.B. Joshua means different things to different people. To some clerics who are envious of him, he is an agent of Satan, a magician or an occult healer. To many intellectuals, he is an intriguing marvel, a wonder man of the 20th century. To the thousands who have been healed and delivered through him, he is a gift to mankind. Yet, in spite of all these, the question remains – who is Prophet T. B. Joshua? Is he an ambassador of Jesus Christ or of the devil?

“God only reveals His top secrets to those He loves. He revealed the coming of our Lord Jesus Christ to Prophet Isaiah. In the same vein, Jesus Christ revealed who Prophet TB Joshua is to His beloved servant, late Prophet (Dr.) Akin Adewole, shepherd of the Celestial Church of Christ, Opopo Igbala Parish, Ikola Road, Ipaja, Lagos; sometime in 1995. The following excerpts from the press release which Prophet Adewole consequently issued on the 'Man in the Synagogue' in 1995 can be said to put to rest the seemingly endless controversy surrounding who T. B. Joshua is”: [130],[131] End of quote.

God's General, Evangelist C. S. Upthegrove from Florida, USA was age 83 in 2012; when he came to Nigeria, in fulfillment of Pastor A.A.Allen prophesy: [132] because his being in Africa for the first time in his life; was based on the prophesy of another reknown, famous God's General, Pastor A.A.Allen of Miracle Valley Church, USA; who in 1966; gave a prophecy of a mighty prophet of God that will come out, from Africa, with the

description of his place and his characteristics, and A.A.Allen said further that he may not be living when the prophesy comes to pass, but he said that, he belief that Evangelist Upthegrove will.

Hence he, Upthegrove was delighted when Prophet T.B.Joshua granted his request with an invitation to come down to Nigeria. The God's General C.S. Upthegrove said to the congregation in the auditorium of SCOAN further thus: And I quote “In all my 70 years in this ministry including being in service with great Generals of the faith, Oral Roberts, Catherine Kuhlman, William Branham, Jack Coe, A.A.Allen and many others, I had never seen so many people get out of wheelchairs and give up their crutches, walking and praising God for healings and great deliverances”: [132],[133]: End of quote.

Evangelist Bill Subritzky from New Zealand; paid a visit to SCOAN; in 2014: watch the video clip for his testimony and views about Prophet T.B.Joshua: [134].

For over 40 years, Evan. Bill Subritzky from New Zealand has led an interdenominational world-wide ministry of evangelism and teaching. He has conducted meetings and seminars in association with local churches in every continent and has seen literally thousands of people have an encounter with the risen Jesus Christ and receive healing
Here is his testimony about the remarkable impact his visit to The SCOAN and encounter with T.B. Joshua had on his life and ministry. To God be the glory! [134].

Pastor Benny Hinn granted the Emmanuel TV crew an interview in Greece. The views of Pastor Benny Hinn about Prophet T.B.Joshua are thus: [135]

Prophet Joshua Iginla Prays on Prophet TB Joshua's Attack: [136]

Consequences of the SCOAN Rapid Progress:

However, when they cannot comprehend the phenomenon of his successes, most especially his Spiritual power of miraculous healings; deliverances prolific precision prophetic messages, and his philanthropic activities; campaign of calumny, slanderous and false allegation: name calling and vilification including character assassination started in earnest; due to jealousy and envy that graduated to hatred with passion; persecution with no just cause at all, for whatever reason(s): Moreover, T.B. Joshua Watch: a comprehensive resource on T.B.Joshua and SCOAN; which is a dedicated website, created purposely to malign, vilify the person of Prophet T. B. Joshua and to distort all the wonderful work of the man of God; in the early stage and era of his ministry, and those that are being done presently; in Jesus Christ name by him. In fact, the malignity caused by remarks of the owner and creator of T.B.Joshua Watch Website; comprises the malicious and deceptive interpretation of Prophet T.B.Joshua healings,

deliverances, and prophesies, done in Jesus Christ name, through the Holy Ghost at SCOAN; as ordained by the Almighty God. Signs and wonders backed by the Authority and Power of God; reminding human race, of the "End Time and Second Coming", of our Lord and Saviour, Jesus Christ; preaching the Gospel to the entire world, as witness, to all the nations of the world; as a fulfillment to the prophesy in the Holy Bible in Matthew 24: 14.

Planning and execution of Planned Attack(s):

Consequently, it can be understood why his antagonists, either internal or external, national and international; will go to any extent to plan, and use their enormous ill-gotten wealth, and influential position in the society; in attempted several abortive failed planned attack; to bomb the main auditorium of the Cathedral Building of SCOAN, through Boko Haram Deadly Horrifying and Terror Striking Squad Force Members: after which they allegedly, successfully, used the military aircraft; to carry infrasonic weapon radiation, to carry out the devastating attack of SCOAN Building; that resulted to the tragic calamitous incident of Friday September 12, 2014 Just as it happened to USA on September 11, 2001: [174]; through the US adamant enemy; which is the extent the Homosapien can go, due to hatred.

Different Types of Weapons of War and Destruction:

Following are the lists of assorted types of weapons of war and destructions; consisting of those that have already been invented and produced; and it consists also, some, such as envisaged would be "Alien Weapons" that are also listed, but, are more of science fiction; and that of future advanced technology.

Alien Weapon

Chemical, Biochemical, and Biological Weaponry

Bionic Weaponry

Sonic Weapons,

Photonic Radiative Weaponry

Particulate Radiative Weaponry

Nuclear Explosives

Climate Modification and High Technology Weapons

The Ultimate Weapon

Hypersonic Missile

Different Types and Forms of Useful and equally Destructive Energies:

The above listed various different weapons have inherent associated accompanied types and forms of effective "Energies" which are evidences of the result of their awesome power. The lists are as follows:

Infrasound or Infrasonic Energy within the Acoustic Spectrum

Laser Rays Energy within Light spectrum

Chemical Energy within Explosives

Electrical Energy through Turbines & Generator Plants

Mechanical Energy through Motor Plants

Solar Energy through Sun Rays

Wind energy through wind

Tidal Energy through Oceanic waves

Geothermal Energy through Rocks

Nuclear Energy through Uranium

Accidental Discovery of Infrasound or Infrasonic Weapon by Vladimir Gavreau:

Because, the case study of the SCOAN Collapsed Building, which I embarked on in this paper, was primarily to confirm, whether such a weapon of enormous potent hidden or latent energy, that can destroyed a massive concrete structure within few minutes, without any audible or visible appearance of any sign, and interconnector or link; has been invented and produced. And secondly, the concerned for security and safety purposes also become a motivator.

Hence, to establish the actual existence of a lethal weapon, such as Infrasonic or infrasound based; I wish to quote the following crucial necessary relevant passages and paragraphs from "Hubpages.com-Education-Infrasound-Weapons-Silent-But-Deadly": which goes thus, and I quote "At greater intensities, infrasound can make a person feel ill and disoriented. At even greater energies, infrasound can kill by causing the internal organs of a person to vibrate so violently that they rupture. Obviously any device that could generate infrasound at these energies would make a devious and lethal weapon.

"The reason sound waves can kill is that they carry energy. The sound waves caused by a powerful thunderclap, though miles distant, can not only startle a person, but can rattle dishes in cabinets and knock knick-knacks off shelves. That is because the sound waves still carry enough energy to disturb physical objects despite traveling such a distance.

"In 1957, while the Cold War was still quite heated, Dr. Vladimir Gavreau: had assembled a team of researchers dedicated to developing robotic devices for a variety of military and industrial purposes. During work, the team would periodically fall victim to spells of nausea. Even those called upon to inspect the facility to determine the cause would experience the same ill feeling. Strangely, whenever the afflicted person or persons would step outside the building, the symptoms vanished. They found that opening the windows reduced the effect, but did not eliminate it entirely. The mystery affliction persisted, causing a serious disruption of Gavreau's work. Eventually, after other causes such as noxious vapors or compounds were ruled out, the culprit was determined to be a ventilation fan motor. Gavreau's team knew the fan motor was the culprit, as direct exposure to it caused its victim to be ill for hours afterward, but they did not know why.

"The motor was causing vibrations of the air at 7 cycles per second, well into the infrasonic range. The sound from the fan motor could not be heard, but its effects were quite evident. Eventually they determined the infrasonic waves from the motor caused a resonance within the building. A resonance

occurs when the frequency of sound is just right so that the peaks and troughs of the sound waves bouncing back and forth in a medium line up and reinforce each other. Thus, the peaks are higher and the troughs are deeper. The cavernous interior of the industrial building amplified the sound waves even more. When the thoughts of the group turned toward reproducing the effect through some type of self-contained, movable apparatus, the potential for weaponization became obvious. Experimentation produced a device utilizing large custom-built organ pipes, with the energy supplied first by a motor-driven piston, then by a pneumatic mechanism.

“Dr. Gavreau's team tested the infrasonic device on themselves. The effects were almost immediate. First came intense pressure on the eyes and eardrums. Soon after, intense pain racked the entire body. Then the entire building, a massive and stout concrete structure, was shaken. One of the team members managed to switch off the power, despite being in excruciating pain. The group experienced altered vision and painful spasms throughout the body for days following that one brief test. In retrospect, it seems that if the device had been left on any longer, Dr. Gavreau and his team would have died right there and then, victims of their impatience to have empirical data on the effect of their new endeavor on living human beings. The team had also seriously miscalculated the power that would be generated by their device. Earlier I referred to infrasonic weapons as both lethal and devious. The devious nature is derived from the fact the weapon makes no audible sound”. End of quote.

Advocating and Soliciting for Foreign Explosive and Weapon Expert Independent Investigation:

Indeed, the nature, manner and way the building collapsed, and because of other relevant initially stated reasons, that caused abhorrence for Prophet T.B.Joshua and SCOAN; and the following cited two crucial happenings; it should become essential, for the international community to be interested, and become proactive; in assisting to unravel the mystery, surrounding the SCOAN dastard attack; that claimed 116 casualties. Essentially, because of the issue of probable utilization of an advanced technologically invented sophisticated destructive weapon such as the “Silent but Deadly” *Infrasonic* weapon, including the issue of the military aircraft, that flew over the collapsed building four times, before the structure collapsed vertically, momentarily on its base floor by floor; after which the aircraft did not come back, however, amazingly, the Military and Nigeria Airspace Management Authority (NAMA); agreed that its flights were done under the military training schedule Programme; which also coincided with the widely reported case of the missing military aircraft, on bombing mission of Boko Haram locations in Bornu State, within the same period of time.

The Tragic Incident:

On Friday September 12, 2014; calamity struck at about 12 noon,

within the premises of Synagogue Church of All Nations (SCOAN), located at Ikotun Egbe, in Lagos State, Nigeria; when the church 6 storey guest house building suddenly collapsed. The area was cordoned off, as rescue works commenced immediately.

The Setting Up of a Coronal Inquest Investigation Panel:

Lagos State Government sets up a Judicial Corona Inquest Investigation panel, headed by Chief Magistrate Oyetade Komolafe; which its mandate and term of investigation is to investigate the cause and circumstances resulting in the death of 116 people following the building collapsed of September 12, 2014.

View and comment of Prophet T.B.Joshua on the Tragic Incident:

Meanwhile, the General Overseer of SCOAN, Prophet T.B.Joshua alleged, that the church was attacked by Boko Haram, as there was a mysterious aircraft that flew over the collapsed building four times; after which it did not return any more, after the fourth flight: [137],[138].

Commencement of the Judicial Panel Investigation:

When Chief Magistrate Oyetade Komolafe Judicial Investigation panel commenced sitting on Monday October 13, 2014; thirty-two (32) numbers of witnesses gave evidences, and tendered 45 exhibits. But out of their testimonies and evidences, only six (6) evidences were used: Three (3) witnesses out of the six (6) witnesses, testified that the building collapsed, due to structural defect in the construction of the building; while the remaining three (3) witnesses who are personnel of Lagos State Government Agencies, testified that the building collapsed, due to under sizing of its beams and columns.

Crucial Evidences of Experts Jettisoned and discarded:

Surprisingly, two most crucial evidences, that could have led to, a call on Government at both Federal and State levels, in the panel recommendations; for further thorough investigation by experts from the Advance Countries; due to both testimonies and evidences; of the weapon and explosive expert, and that of Nigeria Police Force investigating team; which should have been crucial, and very essential pointer or lead, to solve the riddle, surrounding the cause, of the tragic incident; pertaining to utilization of infrasonic weapon; and the issue of the Military Aircraft that flew over the building, at irregular intervals, flying on it segment by segment in a segregation manner, starting from the Aircraft Pilot left hand side, moving towards his right hand side over the building, during the four (4) times, within a duration period of just 24 minutes (11.30 am – 11.54 am). Moreover, the Military and NAMA witnesses testified and claimed that the Aircraft was on training flight scheduled Programme. Then the pertinent question, which would come to the mind of an unbiased open minded person; will be thus: does it mean the training schedule Programme within a whole day, is only for that very short period of 24 minutes? Nevertheless, the experts' evidences were jettisoned, rejected and

discarded.

Analysis Of Chief Magistrate Oyetade Komolafe Coroner's Inquest Investigation Verdict:

The following are the point by point given verdict, and the associated recommendations, of the judicial panel; which will subsequently be followed by, the analysis that the author of this case study paper, carried out initially on their verdict and recommendations, taking it one by one and point by point.

Mandate & Terms of Investigation Given to the Panel:

To investigate the Cause and Circumstances resulting in the death of 116 people following the building collapse on September 12, 2014

Reasons for Embarking on The Analysis of the Panel Verdict:

In this write-up, on the verdict and recommendations of the corona inquest investigating panel; and my analysis on it; it is imperative for me to deal first with the actual cause of the tragic incident, which to me, is the crucial and the most significant aspect of the Lagos State mandate to the judicial panel of the corona inquest investigators, instead of the circumstances and circumstantial aspect, which was actually exhaustively dealt with, in the verdict and recommendations made to the Lagos state Government; as Chief Magistrate Oyetade Komolafe and her judicial team have done; in the highly suspected verdict and recommendation full of ambiguities and bias pronouncement that led one to believe the insinuation of predetermined conclusion.

Observations Made during the Period of Investigations:

It was obvious from the commencement of the investigation, due to the utterances of the Chief Magistrate, and various Lagos State Agencies personnel; that actual cause is not the target, but scape goat. As a result of which, the judicial panel have with ignominy, dismissed the two key issues through which the actual cause of the calamitous event of Friday September 12, 2014 could have been thoroughly investigated and exposed. In order to ensure that future re-occurrence has been prevented.

After going through the following analysis, the reason for my arrival at this assertion will be made clear. I opined and believed that (i) The nature, manner, way and brief period of the collapse should be the main determinant of the cause. (ii) The mysterious air craft that flew low at the stated 1,100ft (330m) by NAMA personnel should have been under elaborate scrutiny, as the major factor of the cause.

This should have been done, by utilizing the evidence and testimony of the expert on explosive and military weapon as the spring board to lunch full investigation, but for Nigeria, nay Africa mentality of always looking for scape goat in lieu of solution and prevention of future occurrence.

In fact, the opportunity created by Mr. Biedomo Iguniwei testimony for recommendation of further investigation to be conducted by weaponry scientists, researchers and experts from a country like US, China or any country from Europe, was lost

and was jettison for mediocre opinion, and consideration of Chemical weaponry instead of sonic weapons, which was the area their investigation search light was beamed. Hence, the claim of no evidence of carbon monoxide in the victim lung, made Chief Magistrate Komolafe arrived at her no bomb blast and fire, for proving that the collapse was not due to chemical weaponry or explosive attack, a conclusion that has initially also made Mr. Biedomo Iguniwei considered other options, due to his background and experience, most especially after his scientific analysis, come to the conclusion that the building collapse was due to utilization of infrasonic weapon and radiation to attack the SCOAN 6 Storey Guest House Building, being built for the comfort and convenience of SCOAN Guests to shield them from profit oriented Shylock Landlords, who have reconstructed and turned their buildings to hotels near and far at and around the Synagogue Church of all Nations (SCOAN) location.

Corona Inquest Panel Members Have No Consideration For Modern Era Technological Advancement:

Moreover, in this era of technology, and of new innovations and ideas, being translated into scientific discoveries, resulting in and accompanied with so much advancement, development and production of new inventions being discovered through researches; chemical weapon and explosive can never be, and is no more the only weapon that is very lethal and effective, even with more disastrous, devastating, catastrophic, calamitous, destructive and killing effect; and in which category, is infrasonic and hypersonic weapons: based on acoustic or sound energy utilization; while infrasonic weapon fired radiation; are not within audible and visible spectrum range: within the entire sonic spectrum, the effect stated and listed above within this paragraph are its characteristics; but hypersonic missile arm: doesn't depend and is not dependent on its effect manifestation alone; is audible and visible, as it is within ultrasonic range of sonic spectrum: and presently, the hypersonic weapon: is being placed along and compared with nuclear weapon in its output effectiveness according to on-going researches, within researchers, in the advanced first world countries; if and when utilized and deployed in war-fare. Consequently, the world powers Russia, China and US; are already in fierce and envious competition researching vigorously into further improvement in production and utilization of the sophisticated weapon of war. Hence, it is worrisome and amazing that Chief Magistrate Oyetade Komolafe did not considered any aspect of the scientific oriented testimony and evidence of Mr. Biedomo Iguniwei at all, but just dismissed with a wave of hand and with ignominy, the expert evidence that proved scientifically and logically, beyond reasonable doubt; that the tragic incident of the collapse of SCOAN building was due to infrasonic weapon, which is within the family of sonic weapons.

Continuous Research Works On Weapon of War and Destruction: Moreover, in the field of research and production of military weapons and hardware, further researches, examinations, verification and investigation works, are still on

going in the Advance Countries such as USA, Russia, Europe and China through collaboration of their Researchers, Scientists, Engineers, Research and Development Departments of Universities and Technological Institutions, Military and Research Centres; on on-going new innovations and inventions, general improvement couple with development; as to the eventual production and utilization of the following various weapons weaponry: Alien Weapons, Chemical Weaponry, Biochemical Weaponry, Biological Weaponry, Bionic Weaponry, Sonic Weapons, Photonic Radiative Weaponry, Particulate Radiative Weaponry, Nuclear Explosives and Climate Modification and High technology Weapons . All these various weapons, are being produced and tested for effectiveness, and preserved to be used in future attack during periods of war, by the military in the advance countries various wars. Hence the expert, who has worked for 6 years at a military establishment, is in a better position to know the difference in the usage of chemical weapon, or infrasonic weapon, not those who have never have anything to do with military wares.

Views and Opinion of UFO Researcher and Scientist:

On the 18th September, 2014; Greg Odogwu, a UFO researcher also wrote and caption his write-up thus: "Did UFOs destroy TB Joshua's building" in the article it was obvious that the writer ended captioning his article thus, due to the following two phenomena (i) Nature, manner, way and brief period of the building collapse. (ii) Mysterious air craft that flew low, above the building. Certainly, any unbiased and open-minded person will have that notion, immediately after watching the CCTV footage; and see exactly how the tragic incident occurred. In the article written by the UFO Researcher, usage of Alien Weapon by UFOs was the envisaged and suggested probability of cause of the building collapse

Evidence of Weapon and Explosive Expert Treated with Ignominy:

However, amazingly, Chief Magistrate Komolafe and the Lagos State Agencies were not bothered by the two phenomena; as their predetermined verdict, were their goal and targeted objective, and their aim of conviction and indictment. Consequently, in the verdict dished out by Chief Magistrate Oyetade Komolafe on behalf of her members of the corona inquest judicial panel, treated with ignominy, a very important testimony that could have led to the determination of the actual cause of the sad and tragic incident, given by Mr. Biedomo Iguniwei.

Presently, he is a postgraduate student of Explosives and Material Science with the Nigerian Defense Academy; with his initial 6 years' work experience with the Defense Industry Corporation of Nigeria; after graduating from the University of Maiduguri with a B.Sc. Degree in Chemistry; he is also presently a lecturer at Kaduna Polytechnic, College of Science and Technology, in the Applied Science Department of the Institution; an expert and scientist, and researcher of weapon

and explosives in military wares; who, due to his background and research experience in explosives and military weapons took personal interest in the collapse building, and had consequently visited the site, watched the CCTV footages and made oral inquiries; which will eventually enable his research paper manuscript to be written and submitted to a reputable foreign base organization; International Journal of Scientific Engineering Research (IJSER) Organization.

However this expert background educational qualifications, professional training and wealth of accumulated experience, were, to the judicial panel, inconsequential, insignificant and useless; hence, his evidence was dismissed and discarded, as there was no any intention for its consideration, or for its utilization by the panel; with an unreasonable excuse, of reference to non-evidence of chemical and explosives utilization, with accompanied bomb blast and fire, and also because of non-presence of carbon monoxide within the internal organs of the victims. What a ridiculous proposition and consideration, most especially when the reason for this has been given and it were conspicuous in the Expert evidence that infrasonic weapon fired below or at 20HZ, within an appropriate range of an altitude of 100m – 1,000m, that will have devastating disastrous effect on massive concrete structure, without being audible and visible; could only be the cause of such collapse and not utilization of Chemical Weapon or/and Explosives.

Judicial Panel Verdict And Recommendations:

The following are the Premises and Assertions, on which the verdict and the recommendations, of the Corona Inquest Investigation Judicial Panel presided over by Chief Magistrate Oyetade Komolafe, were based:

Chief Magistrate Komolafe said that, the varying injuries seen on the victims were consistent with blunt force trauma that would normally be sustained from a collapse building.

She dismissed the suggestion by the Church and its witnesses that the collapse was caused by a mysterious aircraft which allegedly hovered over the said building moments before it went down.

She said the CCTV footage and the testimony of witness from the Nigerian Airspace Management Agency (NAMA); the said aircraft flew over 1,100 feet. This is approximately=330metres and exactly=335.23metres: 1feet=0.3048metre.

She said that the aircraft was 103floors above the collapse building. There was no direct hovering of the aircraft above the building and people could be seen going about their normal activities when the incident occurred.

She also dismissed the testimony of explosives and weapons expert, who is also a postgraduate researcher and scientist, Mr.

Biedomo Iguniwei, who testified that the building may have collapsed due to infrasonic radiation.

Chief Magistrate Komolafe said that there was no carbon monoxide found in the lungs of any of the victims to have suggested that there was a bomb blast or fire incident.

She said that the reports tendered by Nigerian Building and Research Institute, Council for the Regulation of Engineering in Nigeria COREN and the Building Collapse Prevention Guild all pointed to a structural defect in the construction of the building.

She said that the Agencies which are definitely Lagos State Agencies; had in their reports averred that the building collapsed due to under-sizing of its beams and columns.

She recommended that CSP Haruna Alaba the Divisional Police Officer, Ikotun Police Station, should forthwith be transferred from the said station because he failed to take note of what was happening in his area, and has to rely on information from the Police HQs.

She recommended that the Church should be investigated and tried for not obtaining the necessary permit before constructing the collapse building, which resulted in the death of 116 people including several South African Nationals.

She indicted the structural engineers- who are Messrs.' Oladele Ogundeji and Akinbela Fatiregun of Hardrock Constructions – who supervised the construction of the building and recommended that they should be investigated and tried for criminal negligence.

The Analysis, Views And Comments Of The Author; Engr. Michael Ola Bolaji; On The Assertion And Premises On Which Chief Magistrate Oyetade Komolafe Coroner Inquest Investigation Judicial Panel; Based Its Verdict:

My First Assertion And Explanation Of Judicial Panel First Verdict:

Indeed, this supposedly is physical evidence that doesn't need extraordinary examination to deduce or know as it will be conspicuous and obvious signs on the victims.

Reason For My First Assertion:

There is no need for rigorous tests or examination, for any sane and reasonable person, to come to such a conclusion stated by the panel members; in their verdict.

My Second Assertion And Explanation Of Judicial Panel Second Verdict:

In order for the panel members to remain impartial, and address the real cause of the tragic incident as mandated, the initial allegation of a strange Air Craft that flew over the SCOAN collapsed building, should have been the crucial and vital claim to be adequately, thoroughly, exhaustively and elaborately

investigated objectively, instead of Chief Magistrate Oyetade Komolafe summarily dismissal of, the all-important, salient and crucial allegation.

Reason For My Second Assertion:

The nature, manner, way and sudden occurrence of brief time factor; that resulted within few minutes, for a massive structure such as SCOAN 6-Storey Building; becoming and been reduced or crumbled to dust and rubble; momentarily and vertically; floor by floor on its basement and foundation area; as shown in the CCTV two Cameras Footage; just like a pack of cards; should have been a very serious concern for Chief Magistrate Oyetade Komolafe and her Corona Inquest Investigation Team in a 10months period of investigation. It is a crucial happening and strange phenomenon, that is worthy of thorough and elaborate examination and investigation, which the Coroner would have ordered to be conducted immediately and be concluded within 3months, during its 10months investigation period. *Supposedly Caliber Of The Neutral Experts, Who The Panel Could Have Suggested, To Lagos State Government; To Be Given The Responsibility Of Further Investigation, Of The Two Crucial Unusual And Abnormal Issues; Of The Military Aircraft Flights And Infrasonic Weapon Utilization:*

For instance, if Chief Magistrate Oyetade Komolafe and her team, have stayed over board with no suspicious acts and actions, and also no traits of impartiality betrayed, in their behaviour and utterances; then appropriately, when the issues of the two crucial occurrences were introduced; they should have immediately call on Lagos State and Federal Government to intervene and allow further investigation; to be carried out by properly and adequately equipped professionals, experts and unbiased, neutral personnel and personalities from agencies, Establishments, Institutions: such as Universities, e.g. UNILAG; Polytechnics/College of Technologies e.g. YCT; or any Non-Military Research Centres.

Because, the Military has been shown to be biased, by their testimony, in collaboration with NAMA personnel; concerning airspace approval, for the military allowed Aircraft, to fly over SCOAN Building for a training duration of only 24minutes (out of a normal working hours of 8 hours a day); for four irregular flights between 11.30am and 11.54am (that were satisfied by trainer of the trainees, who are only two crew-member pilots on training); a period that coincided with the widely reported news of the missing military aircraft, which was on a bombing mission, to Borno State; that left Yola military base at 10.45am, to bomb Boko Haram locations, and return to base at 12noon; but failed to return: and later, one of the pilot was captured and killed gruesomely and brutally, by cutting off his head with an axe several times, by Boko Haram. He was a Wing Commander and a Wing Commander cannot be a trainee. And there were conflicting and confusing, distorted reports on all that happened to the two pilots and the Air Force Military Plane [153]: just to cover up the cruel, implicating attack of SCOAN Building. All these happenings have raised the issue of the military involvement and allegation; that they collaborated with Boko

Haram to carry out the attack.

Because initial several attempts by Boko Haram sent explosive planting trained expert teams, who were at SCOAN vicinity; at various times in recent past, failed woefully to carry out their nefarious and destructive acts; which they have even carried out initially, successfully in churches, motor parks, police stations and military bases at various locations nationwide:

Hence, the appeal and call for non-partisan, impartial and neutral, open minded unbiased establishments; which possessed required sophisticated testing equipment and scientific laboratories, with well trained staff; other than, or instead of, and different from, the Lagos State Agencies Personnel; who happened to be the accusers, prosecutors and the judge, as evidence during the investigation period in the utterances and indicting pronouncements by personality such as the Lagos State Commissioner of Physical and Urban Planning ministry, Mr. Ayinde and his other Colleagues from various Lagos State Agencies; who seem to be collaborating well with Chief Magistrate Oyetade Komolafe led team of investigators; in their allegedly hidden agenda, which usually made the Chief Magistrate exhibits hostility and annoyance whenever any witness is testifying and giving evidence that tends to be supporting SCOAN in general, and Prophet T.B Joshua in particular; most especially the Weapon and Explosive Expert, Mr. Biedomo Iguniwei, to the bewilderment of the court audience.

In actual fact, the mysterious aircraft issue should not have been swept under the carpet just like that, if actually the reason of the coroner investigation was to identify the actual cause of the calamitous event, in order to prevent such occurrence(s) in future. For instance, on the fateful day, it was widely reported in the news media, the missing military air craft that left Yola Military Base at 10.45am on a mission for an assignment, to bomb some locations of Boko Haram at Adamawa and Borno States, and return to base by 12noon, but did not returned. The timing of the disappearance of the military declared missing air craft up north, coincided with alleged and claimed mysterious air craft presence down south, and also coincided with the time an air craft flying so low was sighted at Egbeda area, and the 4 times hovering and flying of the alleged and claimed mysterious air craft, over SCOAN 6-storey Guest house building between 11.30am and 11.54am, after which the mysterious air craft did not come back again. Amazingly, nothing of such concerning the missing air craft was mentioned or taking into consideration in the investigation, verdict and recommendation of Chief Magistrate Komolafe and members of the Lagos State inaugurated corona inquest judicial panel.

Appearances Of The Military Air Craft 4-Times Within 24 Minutes At Irregular Intervals Over The Scoan 6-Storey Guest House Building: (11.30 – 11.54) am.

1st Flight over the Building-----@ 11.30am

2nd Flight over the Building-----@ 11.43am

3rd Flight over the Building-----@ 11.45am

4th Flight over the Building-----@ 11.54am

Missing Military Air Craft Period Of Disappearance After Departing The Military Base In Yola For Bombing Assignment At 10.45am To Return At 12noon (Mission Period: 10.45am – 12noon; Within Which It Appeared In Lagos, And Flew Over SCOAN Guest House Building Between 11.30am & 11.54am To Carry Out Its Assignment). But, After Which It Never Safely Returned Back To Its Yola Base. As The News Of Its Crashed At Adamawa Was Later Reported:

Apparently, it is logical and it can be argued and deduced, from observed flight route changing, and also from the above coincidental periods, of the Aircraft appearances in Lagos; most especially, when the base of the Aircraft flight origin, Yola: in Adamawa State is put into consideration; and the fact, that it did not crashed within Borno State, but in the same Adamawa State; its flight origin is also considered; then, it seems, that, the Air Craft Mission was actually accomplished and its objective achieved, within its mandated period of time, of getting the pilot(s) equipped and briefed for the purpose of diversion to Lagos, and be back in Yola thereafter, without showing its presence in Borno State; only to be brought down when coming back to its base Yola, in Adamawa State to ensure that, evidence of its diverted flight and changed mission have been totally obliterated by been brought down at Adamawa, which was where its flight originated, after mission accomplished successfully; at SCOAN in Lagos State; and not within Borno State territory, where it supposed to go; on its mission to bomb Boko Haram locations.

This highly secrete and tough mission, which will involve very few highest ranking military and state security personnel; can only be embarked on with the knowledge of topmost military highest command, because of the huge amount of money, which will be expended; to purchase such sophisticated weapon of destruction; such as Infrasonic Weapon. And also the topmost secrete Boko Haram involvement, which made the mission to be highly classified top secret in nature; and become much more complicated, as it involved a SCOAN Guest House Building; harbouring Visitors from other countries.

Acts and actions undertaking just to support the "Jihad War" aim and objective of Boko Haram, in the Islamization of Nigeria in general; and the Northern States in particular. Confession of a Boko Haram member that the Jihad, that the group is carrying out on those they term infidels, is with the support and backing, of the Northern Moslem Influential people in particular; and the entire moslem religion Faithful in Nigeria; in Saudi; and in Iran: depending on which each of the two groups, the Nigeria Moslems have allegiance to; in either the Supreme Leader of Iran or the Saudi Royal King. This should be a concern to Nigerians non-moslem; because, the country's constitution recognized Nigeria as a secular nation: Considering the

confession of a former Boko Haram Member earlier on referred to in this paper: [129].

This campaign to Islamize the country may not be far from the truth, when many factors are factorized into it; such as the recent revelation, during the presidency of President Goodluck Jonathan, concerning, the sending of ill equipped soldiers; to face well equipped Boko Haram Fighters; which resulted in Nigeria Army sustaining heavy casualties; and even there was a pathetic story in the newspapers; about the Nigeria troop consisting of many soldiers; that were ambushed by the Boko Haram, and killed for fun, and for nothing; when they were sent to Boko Haram Location. Because, the prior plan of the movement of the Nigeria Soldiers were already known, to the Boko Haram Fighters.

All these acts and atrocities, committed by the then topmost hierarchy Army Officers and the national security personnel; led to the revolt within the Armed Forces; and also led to unjustified Court Martial of the so call rebels, that committed would be rebellion; and sentencing of some of them to death and various punishments meted out to others.

However, those of them that were lucky to be still alive, as they were waiting on death row, received their pardon and reversed death penalty at the inception of the current Federal Government of President Muhammadu Buhari (PMB) Regime. Are they not the same top most Security and Military Leaders and Officers; who are now facing the on-going probe and prosecution; and who are also, presently the top military and security personnel involved in shady, shoddy, fraudulent and dubious practices done concerning the procurement of military wares worth of Billions in US Dollars, as now being revealed.

Concerning the mysterious aircraft that flew over the collapsed building, shortly before the occurrence of the tragic incident, it is now clear that it was an Air Force plane, as revealed; that the Air Craft that was seen hovering over the SCOAN Building; was on Scheduled Training Programme. This coincidental period of time interval and the probability and possibility of the missing Air Craft to leave Yola military base at 10.45am and start its 1st flight over SCOAN Building at 11.30am, after the Pilot(s) must have been briefed, is very possible and probable as it is also apparent, from logical reasonable reasoning deduction.

And for the plane returning to the location, where it was claimed that its wreckage was discovered; is also worrisome and a possibility, to explain, why it was shot down, on his way back to base in Yola military base, in Adamawa State; which was a mistake on their part, as it shows that the Aircraft did not even, in the first instance, go on its original initial mission of bombing of Boko Haram Locations, in Borno State; as its crashing was not within Borno State territory, it is obvious that, after its 4th flight over the building and mission objective accomplished at 11.54am. The pilot(s) did as must have been

instructed, to fly back to base in Yola.

But, probably, unknown to the pilots, that already, the flight route, they will take back to base in Yola, Adamawa State; has been fraught with danger of been short down by either Boko Haram Fighters, or by those loyal Boko Haram Members, planted in the Nigeria Armed Forces as planned in their clandestine, hidden top secret, agenda; by these sympathizers and supporters of Boko Haram initial plan of Islamizing the Northern States in particular; and the entire nation in general.

This is in order to spread Islam and introduce Islamic practices, tenet and principle, doctrines and teachings: a plan which includes capturing and forcefully giving young Christian girls in marriage; which made isolated reported cases to be treated with levity by police initially; a plan to compulsorily secure grazing route nationwide; to enable Christian inhabited villages and hamlets to be attacked; and several Christians to be killed, and their Churches to be burnt; instead of well-planned Modern Cattle Ranches; with all year-round irrigated extensive grazing farmland layout; planted with appropriate grass in some States voluntary locations; not acquisition of any State land compulsorily by force; Dairy associated businesses; hide and skin associated businesses; Beef Meat associated businesses, shoe making associated businesses, in small, medium and large scale will eventually be established in Cattle Ranches locations.

Educational Facilities:

Various categories of Educational Institutions will follow suit; and the children of the Fulani, who will seized to be called "Nomadic Fulani" will have equal opportunity like every citizens of Nigeria to have access to useful Western and Arabic education, and they will not anymore be tools to be manipulated: As it is been done presently, when it is common scene now; for the young Fulani Herdsmen, who are now having AK 47 and sophisticated weapons that were not given to our Soldiers initially during the President Goodluck Jonathan government by the Military High Command and Security Agencies.

Failed Plans:

All the initial plans against Christians bombing and killings: [129]; boomerang and went haywire; when in the infinite wisdom and mercy of God, as prophesy by Senior Prophet T.B.Joshua; they went out of control of their sponsors and started bombing Mosques, Market places and Motor Parks in various Northern States. We should not forget easily, that initial bombing sprees espionage, were churches, motor parks, police stations, and army barracks. But later Emirs were waylaid and killed, mosques and gatherings of people irrespective of religion became targets; just after Friday September 12, 2014. It has now become an embarrassed occurrence and condition that has resulted in a change of leadership of Boko Haram by ISIS.

According to Prophet T. B. Joshua, why speaking on the incident;

he said, that, darkness can never conquer and overshadow light; and neither can lies overcome the truth however long a period it takes; because, one day the truth will prevail: [139].

My Third, Fourth, Fifth And Sixth Assertions And Explanation Of Judicial Panel Third, Fourth, Fifth And Sixth Verdict:

The testimony of witness from the Nigerian Airspace Management Agency (NAMA), who said aircraft flew over 1,100 feet and which Chief Magistrate Komolafe assisted to estimate as 103 floors above the collapsed building, should have been positively considered in SCOAN favour. Although, the stated values were mere guess work as the witness is not one of the pilot of the aircraft. But yet, the given plane flight altitude value, is within Infrasound firing range.

She dismissed the testimony of explosives and weapons expert, who is a postgraduate researcher and scientist, Mr. Biedomo Iguniwei, who testified that the building may have collapsed due to infrasonic radiation:

This is the most worrisome, unpalatable, unpardonable, serious and unimaginable pronouncement and verdict of the Corona Inquest investigation body presided over by Chief Magistrate Oyetade Komolafe, in all the aspects of the entire 10-months investigation.

Chief Magistrate Komolafe said that, there was no carbon monoxide found in the lungs of any of the victims to have suggested that there was a bomb blast or fire incident.

The in-depth of the ignorance displayed by the above statement, is also a thing of concern, at this age of worldwide technological era. What does infrasonic radiation, pertaining to sound waves, which is within sonic spectrum: has to do with Chemical Explosive, and the product of incomplete combustion of Hydro Carbon Products, or the insufficient oxygen by product, such as Carbon Monoxide; that kills when it is inhaled by Homosapien?

Reason For My Third, Fourth, Fifth And Sixth Assertions And Explanation Of Judicial Panel Third, Fourth, Fifth And Sixth Verdicts:

Since 1ft = 0.3048metres. Approximate Value: 1,100ft = 330metres, and Exact Value: 1,100ft = 335.23metres. Then, these 1,100ft and 103 floors above the collapsed building as stated by the NAMA personnel witness and Chief Komolafe; are altitudes that are still within the range of 100metres and 1,000metres at which Infrasonic Weapon can be successfully used; to fire radiation between 0>20Hz frequency ranges, at any target with achieved appropriate sine waves signals at peak and trough; and caused vibrations producing sound energy enough at various concrete components molecular oscillations at resonance, to have disastrous, catastrophic and devastating physical effect on the required target or object in focus.

It should also be noted and be taken into consideration, that Sound Wave travels at 343.2m/s in air; and 1,484m/s in water; and 5120m/s in iron: [140].

The assertion of Chief Magistrate Komolafe that there was no direct hovering of the aircraft above the building, and that people could be seen going about their normal activities when the incident occurred; was totally wrong, when the above given data concerning the speed of sound; the invisibility and inaudibility characteristics of sound wave energy within the infrasound range is considered.

So also, the NAMA personnel stated altitude of 1,100ft; also becomes ridiculous and the verdict of Chief Magistrate Komolafe also becomes vindictive and bias; as she did not asked for enough explanation concerning speed of sound and nature of acoustic generated energy within 0>20 Hz frequency range; Also, she was not physically present at the scene, when the air craft flew above the building 4-times at irregular intervals.

Consequently, she should have not made the categorical statement to buttress her wrong, untenable, illogical, untruthful and unreasonable assertion. Equally she erred because she was not an engineer or one of the pilots of the Air Craft that day, which could have entitled her to make such a sweeping categorical statement as part of its Corona verdict. Haba!!! Chief Magistrate Oyetade Komolafe, it is my belief that justice should be seen to be given with fear of God, as the ultimate Judge is God Himself.

Moreover, the utilization of infrasonic weapon to fire radiation at 20HZ Frequency is below the audible, visual, or visible range within the sonic spectrum. Hence, only its effect and the outcome of it can be felt or manifested:

[16],[17],[18],[19],[20],[120].

However, "The reason sound waves can kill is that they carry energy". Concerning infrasonic radiation effect, a team of researchers, "Dr. Vladimir Gavreau: and his team tested the infrasonic device they made on themselves. The effects were almost immediate. First came intense pressure on the eyes and eardrums. Soon after, intense pain racked the entire body. Then the entire building, a massive and stout concrete structure, was shaken. One of the team members managed to switch off the power, despite being in excruciating pain. Dr. Gavreau and his team would have died right there and then: to learn more about Dr. Gavreau's Team research works and infrasonic, subsonic and ultrasonic and their effects: [16],[17],[18],[19],[20].

To appreciate the extent of devastating and disastrous effect of infrasonic acoustic radiation, the reknown researcher of Xenology, Robert A. Freitas Jr., said that "Infrasonic radiation ranges from about 0.001 HZ (Cycles per second) for some seismic disturbances up to about 20HZ". Seismic Disturbances are disturbances having a very great effect, and the disastrous

and devastating effect will occurred at about 20Hz: He also said that "Infrasonic and low sonic radiation can also cause massive structural damage": [120].

My Seventh Assertion And Explanation Of Judicial Panel Seventh Verdict:

Chief Magistrate Oyetade Komolafe comment about the reports accepted by her judicial panel, and on which her verdict, indictment and vindictive recommendations were based, which were from the Professional Bodies she mentioned, especially the evidence of the immediate past Commissioner of Physical Development and Urban Planning, Mr. Olutoyin Ayinde, who as a Moslem, representing another Moslem leader, who happened to be the Lagos State Government Governor, at the time of the occurrence of the tragic incident; Lawyer Babatunde Raji Fashola; whose mind and thought can only be known by the Almighty God; whether, he too was a believer in the plan of the religion people, in the same school of thought of Mr. Olutoyin Ayinde; concerning the hidden agenda of the aim, objective and targeted goal of stopping Prophet T.B. Joshua at all cause and cost; from further spreading Christianity; in accordance with the Boko Haram and ISIS Jihad and Islamization Programme and Propaganda; by sending him to jail, bulldoze his Church Cathedral, the Headquarters of his Ministry, and take over the properties, most especially, the landed property.

This seems to obviously been buttressed; by the antagonistic behaviour and utterances that he, Mr. Ayinde shown and displayed throughout the period of investigation. So also, the bias mind, hatred and contempt, that Chief Magistrate Oyetade Komolafe; has for Prophet T.B. Joshua and his Church; although, this is not surprising anyway, because, her behaviour portrayed her as one of those Christians, who believed in many various men of God, who are CAN leaders, including Pastor Adeboye, the General Overseer of Redeem Church; Rev Okotie, Pastor Oritsejafor, who have poisoned the CAN members minds against Prophet T.B. Joshua and his Ministry; according to the evidence given on the website of tbjoshua watch, regarding Pastor Enoch Adeboye response to question concerning TB Joshua and his Church, which cannot be allowed to become part of PFN [141]; such a hostile behaviour as being displayed by Chief Magistrate Oyetade Komolafe is readily expected; hence the vehement extent of her exhibited hostility; to any witness that was giving evidence, that tends to support SCOAN in her court during the investigation; by the Chief Magistrate and its judicial panel members; most especially against the Explosive and Weapon Expert, who because of his training and accumulated working experiences as a professional, tried to help the investigators to get to the root of the cause, as mandated by Lagos State Government, while inaugurating the Corona Inquest Judicial Investigation Panel. An opportunity to achieve the objective of constituting the panel; placed at their disposal on a platter of Gold, was lost because of their hidden agenda.

The panel and its leader jettisoned and discarded the very crucial clue to the solution of the jigsaw that the calamitous incident was consisted of, as offered by the explosive and weapon expert evidence, and also, the Crime Investigation Department of Nigeria Police Submission, and the evidences of the other 24 witnesses, which are contrary to their hidden agenda of conviction at all cause; , out of the total 32 witnesses just because of the hatred they have for the Church, SCOAN; and the General Overseer who represents Jesus Christ, the Founder of SCOAN, on earth, Senior Prophet T.B. Joshua. So, only 6 witnesses' evidences were used by them, to arrive at the final indictment verdict, as given by Chief Magistrate Oyetade Komolafe and her panel members, after siting for 10 Months of investigation duration.

How can ulterior motives not play its role in a case like this? When leaders of CAN and PFN have labeled Prophet T.B. Joshua as Satan, and warned their followers not to have anything to do with him and his church; to detest and avoid him, at all times; which seems to be responsible for the contempt Chief Magistrate Komolafe also has, and the hostility she has being openly displayed in court, against and to any witness, that is giving evidence in favour of SCOAN and its General Overseer; most especially the Weapon and Explosive Expert, Mr. Biedomo Iguniwei; the Police, especially her harsh treatment, of the innocent police officer in charge of the area, DPO Alaba; all these acts, actions, pronouncements and recommendations were out of its given original mandate; and were actually due to the flare of Chief Oyetade Komolafe, and members of her panel; aim of finding fault, instead of finding the cause, as mandated by Lagos State; in accordance with Lagos State Law and Statue: which was meant to enable, the prevention of the incident being repeated; thereby, also guiding against reoccurrence of the tragic event in future .

Considering the accepted 6 out of 32 witnesses evidences and testimonies; one who is unbiased and open minded, as a professional, just as I am; is bound to ask the following questions for God sake: that, what kind of structural defect(s) were they talking about? Which internationally accepted known standard tests, were performed by them; to determine the so call structural defect(s) in the construction of the building? How were the tests conducted? What are the parameters of the test instruments or/and equipment used, and how sophisticated are the test equipment?

Were they shown the CCTV footages of the Military Aircraft that flew over the building for only 24minutes for four times at irregular intervals, which was claimed by the Military personnel representative and witness that it was on military training scheduled Programme; and the Video Clips that clearly shown the nature, manner, ways and how a control demolition looks like, and period of time involved, vertical coming down, and crumbling like pack of cards; of massive concrete

structures; with accompanied stormy dust and rubbles: As it was in the case of the collapsed SCOAN 6 storey Guest House Building? With all these stated abnormal circumstances at their disposal.

And, they still concluded the way they did, in their different individual organization submitted report, through and by, the representatives of this individual professional body, society, or organization; that the collapse was due to structural failure; then, we the so call third and underdeveloped world still have a long way to go; in this age and era of advancement in technology, when space craft is being sent to far away Pluto, a planet of a distance of more than 3 Billion Km, from our own earth and traveling at 30,000km/hr. And reached Pluto on July 15, 2015; which has now gone beyond our Solar System into Kuiper Belt Region a distance of about 4.5 Billion Kilometers, the Kuiper Belt--the ring of rock and ice debris that encircles our solar system: [142],[143],[144],[145]:

Indeed, it is a shame that the representatives of Nigerian Building and Research Institute, Council for the Regulation of Engineering in Nigeria (COREN) and the Building Collapse Prevention Guild Representatives submitted, to the panel of Chief Magistrate Oyetade Komolafe; which she used to support her hidden objective, such an unprofessional; non-scientific proven; substandard reports. Based on wrong analysis made from appropriately and properly derived or got test data, but probably, intentionally misinterpreted; with interpretations which were not based on any background available theory, empirical or practical evidences; and neither were they also base on research findings, nor logical postulations; and not in tandem with the weapon and explosive expert, a professional man to the core, in the required relevant field and professional practice of more than five years, at a relevant military weapon and explosive Organization; but these other irrelevant 6 witnesses' evidences; were the premises and assertions, on which Chief Magistrate Oyetade Komolafe based her vindictive, biased verdict and recommendations. Indeed, the evidences and testimonies of these reputable organizations were the major reports which are from the 6 evidences, she and her panel members made references to with great excitement, and joy; as she was excited and pleased to use them to buttress her partial and impartiality objective defeated verdict; made it become very worrisome; because such bodies' representatives should have done a thorough work; using the best weapon in their arsenal, as many capable professional practicing members abound in the bodies, especially in COREN and NSE.

The lesson to be learnt by these professional bodies, especially concerning usage of modern technology sophisticated weapon, such as the acoustic spectrum inclined, invented destructive weapons, at lowest range of 0>20 Hz. That should have made those sent to such a tragic event occurrence site; to include practicing Electrical Engineer who might be able to link the military aircraft unusual, abnormal irregular flight, with logical

reasoning; with either energy from laser ray of light spectrum, which was my initial thinking, as a probable weapon used; just as it was used in flushing out Osama Bin Laden; from his underground mountain stone bunkers, at Afghanistan by USA. Consequently, it actually forced and made him to flee the place; and relocate from Afghanistan to Pakistan. Where he was eventually tracked down and killed.

The application initially, of laser ray, to carry out the dastard job, could not be thoroughly and well analyzed and comprehended by me; although, Chemical Explosive was rule out by me out rightly, immediately, the tragic incident occurred.

However, I come to know through the evidence of the weapon and explosive expert about infrasonic of sound spectrum, application later; which was corroborated, especially after seen the CCTV Footage and listen to the weapon and explosive expert testimony.

Moreover, I believed that the Nigerian Professional Bodies have gained and learnt a lot on how to handle investigation of collapsed structures, after that of SCOAN experience. The present opinion of mine, actually, stemmed from what I have observed, in the way and manner that COREN and NSE and the Structural and Civil members of the bodies; handled the recent Building that Collapsed at Lekki Garden; by carrying out the required necessary comprehensive tests, with proper and appropriate analysis of data got from the test results, as reported in the media; and just not looking for scape goat or whom to blame; but went into carrying out several engineering and scientific tests; to arrive at a factual conclusion; that will be a guide in future.

If this has been done in the case of the abnormal SCOAN Calamity; most especially, after watching the CCTV Footages as captured by the Security Cameras, as regards the nature, manner and way the building came down vertically on its base; given no much chance for survival of the occupants; not to talk of savaging some properties; which would have been the case of the building collapse; if it had been due to structural failure, or deficiency. But, in SCOAN case, this was done in the report and evidence, given by the expert on military weapon and explosives, which Chief Magistrate Oyetade Komolafe and her team unfortunately, failed to utilize, for the actual cause determination and was dismissed with ignominy.

Meanwhile, the same discarded evidence of the weapon and explosive expert, Mr. Biedomo Iguniwei, was actually the inspirational impetus for me, that enabled me as an Electrical Engineer, to study in earnest with the aid of the modern advancement technology, of several search engines; probed and browsed the internet; to educate myself further, and acquired extensive knowledge, about Infrasound, Infrasonic, the difference in acoustic spectrum, and light spectrum, as regards the latent energy possessed by each of them; the application of

each of them, most especially concerning the existence, and the truth, about effect of Acoustic Spectrum Radiation of (0>20) HZ, Infrasonic or Infrasound; that possessed a devastating, destructive, latent enormous energy; that is invisible and inaudible; which can destroyed a massive concrete structure, silently, without raising any suspicion of anybody in the vicinity; as only its effect will be manifested, physically.

Moreover, I also learnt about its deadly characteristics, as regards its effect biologically on human being; when is under control, within a range of fired radiation, of between 0>7 Hz, at appropriate resonance and, when the frequency of sound is right, and the peaks and troughs of the sound waves bouncing back and also bouncing forward, within a medium, that is making them to be in alignment, and lining up to reinforce each other, and confined to below 7 Hz; the component of human body, especially the internal organs, can be vibrated intensely to cause rupture of the entire internal organs, and instant death.

The introduction of infrasonic weapon, as the cause of the tragic incident by the Weapon and Explosive Expert, made me decided to embark on writing a publishable case study paper; on SCOAN, the man of God, Prophet T.B. Joshua, the tragic event of Friday September 12, 2014. In order to expose the calamitous and tragic incident aspect of the application of Infrasonic Weapon, to other nations of the world to help unravel the mystery and confirm to this nation, Nigeria; whether Infrasonic weapon was actually used on SCOAN building probably to test its efficacy or for testing its potent and lethal destructive effect by the Nigeria Military high command, in conjunction and in collaboration, with Boko Haram Commander.

Because, it was Military Highest Command involvement also, when late Dele Giwa was killed through just ordinary envelope package sent to him, from the Presidency, that he opened either to air or light; which made it exploded and blasted his chest and face; which killed him, and, to which no solution has been found till today: [146],[147],[148].

However, it is now known, that such a weapon, as infrasound weaponry based; had even been used in this country, at location in the East, on a particular already abandon building, during the civil war, by Nigerian Army Personnel who were British trained: [128].

Hence, I wish to use this opportunity to suggest that Major Debo Bashorun (Rtd); should be engaged in the investigation of the military aircraft involvement in the SCOAN Guest House Building Collapse; because of his dual background experience as a military officer and as a high ranking, government personnel, of high integrity, honesty, fearless, courageous and incorruptible; as it is on record that he refused a lot of money inducement, and even risk his life, when he and Professor Wole Soyinka dam the consequences to launch his book written and published, about the killer of Dele Giwa; in which he

mentioned, General Ibrahim Badamosi Babangida (Rtd), his former boss, both in the military and in the government of IBB, where he was IBB Chief Press Secretary; and, was at vintage position to see and know what happened within the military and government circle: [147],[148],[149],[150].

Therefore, for the SCOAN case not to go the way of Late Dele Giwa case; or will not be used to just find a scape goat or for victimization. I decided to prepare and submit for publication this paper, to a reputable organization; whose journals are widely read worldwide; and through which my aim, objective and target goal; can be achieved; for the truth to be known nationally and internationally, worldwide. May be it will enable both Lagos and Federal Government to prioritize issues of safety and security of the inhabitants of this country, as written in the Nigeria Constitution; which they have taken oath of office to defend; over Jihad or Islamization, which is religion matter; and save us all another future tragic occurrence; through the call for further investigation to be carried out by various relevant crop of professionals, weapons and explosives experts, researchers and scientists, locally and internationally.

My Eighth Assertion And Explanation Of Judicial Panel Eighth Verdict:

The report submitted by the individual Agency of Lagos State and the summarized collective reports submitted by all the Agencies, which were in unison and in consensus conclusion in their findings, and in which they averred that, the building collapsed due to under-sizing of its beams and columns; has buttress my initial allegation that the judicial panel verdict was predetermined and vindictive. How the different agencies could conducted individual tests and inspections and unequivocally come to the same unsubstantiated finding and conclusion without collusion? Did they carried out their empirical tests together or they just met and decided to carry out physical checks and come to the same conclusion without any known logical reasoning? And why was it so easy and convenient for Chief Magistrate Komolafe and her members of the corona inquest judicial panel to accept a non-engineering and non-scientific report of the Lagos state Agencies; why it was so difficult to even accept or consider and utilize, any part of several logical, scientific and engineering oriented points raised in the weapon and explosive expert evidence and testimony.

My Ninth Assertion And Explanation Of Judicial Panel Ninth Verdict:

The funny, laughable and most ridiculous indictment and recommendation of the Judicial Panel members is that of the DPO which goes thus, and I quote "that CSP Haruna Alaba the Divisional Police Officer, Ikotun Police Station, should forthwith be transferred from the said station because he failed to take note of what was happening in his area, and has to rely on information from the police headquarters".

Reasons For My Assertions:

The mysterious aircraft cannot be arrested by him, as he cannot be policing the ground and the sky at the same time.

The tragic occurrence was sudden, and caught all the people of the community on aware, then what was expected of him to do in such circumstances; that he did not do at the time?

So, according to Chief Magistrate Oyetade Komolafe, what was exactly the failure she was referring to, on which she alleged that the DPO was relying on information from the police headquarters? Has the DPO been reported to her for dereliction of duty, from the police headquarters?

In fact, the enthusiasm of Chief Magistrate Komolafe, to deal with anybody that show SCOAN man of God sympathy; was so glaring; from the indictment of the innocent police officer. She was just disgusted by the personality of Prophet T.B. Joshua. And so, anybody perceived as his friend or sympathizer must be dealt with.

No wonder, the well reported police evidence and testimony, by the news media; was not considered or mentioned at all, by Chief Magistrate Oyetade Komolafe, so also all the relevant testimonies given by Erudite Scholars who are authorities in their various field of engineering were not brought out to limelight, as the evidences of these intellectuals, including high ranking police officers, from the Criminal Investigation Department; coupled with that of the weapon and explosive expert; might jeopardized or affected the outcome of the predetermined verdict; and the recommendations of Chief Magistrate Komolafe led members of the Corona Inquest Judicial Panel; since the police submission's conclusion pointed to "sabotage"; while the weapons and explosive expert conclusions pointed to the utilization of Infrasonic weapon, as all the happenings characteristics fitted the characteristics of the effect of infrasound, such as Silence, invisible, deadly, inaudible attributes.

My Tenth Assertion And Explanation Of Judicial Panel Tenth Verdict:

That the Church should be investigated, and tried; for not obtaining the necessary permit; before constructing the collapse building; which resulted in the death of 116 people, including several South African Nationals. This is a forgone conclusion as the mind of the judicial panel members have already been made up as to what will be done.

My Eleventh Assertion And Explanation Of Judicial Panel Eleventh Verdict:

She indicted the structural engineers-Messrs.' Oladele Ogundeji and Akinbela Fatiregun should be investigated and tried for criminal negligence. This is also a forgone conclusion as the mind of the judicial panel members have already been made up as to what will be done.

My Findings On The Judicial Corona Inquest Investigation Panel Indictment Verdict:

The inquest took evidence from 32 witnesses. However, as mentioned previously in this write up, above; evidences of only a very few witnesses relevant to their objective and goal, were taken into consideration as significant enough to give their already predetermined verdict, the required necessary support for indictment.

Therefore, it is evident, that selective witnesses and evidences usage by the corona inquest judicial panel was obvious and intentional.

As fault finding was the aim, and not cause finding, and solution to prevent future similar occurrence. Hence, evidence and testimonies that could lead or resulted to the determination of the actual cause, were jettisoned and discarded, and not brought to limelight.

The non-consideration adequately well and enough, the CCTV Footages also was intentional and deliberate to hinder the determination of the actual cause of the calamitous incident and cover-up the truth to prevent its exposure.

The declared missing military aircraft between 10.45am – 12noon; and which was not found to-date; should have being a crucial focus for thorough investigation. However, this was not done at all, as the report of the missing Air Force plane was never recommended for further investigation.

The dismissal of the evidence of the Weapon and Explosives Experts should not have happened. This is because; it has been proved beyond reasonable doubt, the real cause of the collapse of the building, which is the utilization of infrasonic weapon to fire the building at below $0 > 20$ HZ. This is the only option that can be used to explain the nature, way and manner and time taken within which the building collapsed.

It seems that the corona inquest judicial panel deviated from its path of mandate to dwell more on recommendations other than the cause.

My Conclusion On The Judicial Coronal Inquest Investigation Panel Indictment Verdict:

The conclusion is that whether appropriate relevant permit has been taken or not; although, there is no excuse for not obtaining relevant permits, but the effect of the infrasonic radiation cannot be prevented by so doing. So also, if all the agencies of Lagos State representatives are sleeping at the project site, supervising the project; if infrasonic weapon carried by a military aircraft is used, as in this case; the occurrence cannot be stopped.

And however massive the concrete Structure may be; nothing can prevent the destruction and death of the people; as the vibration of the concrete reinforced structure at resonance

between 0>20 Hz; is accompanied by enormous energy; which caused and resulted to the momentary vertical collapse of the building, on its base, floor by floor; and, which did not allow for escape and the savage of properties; as can be seen on the recorded video of the two CCTV Cameras Footage; which made it different from the 7 Floors Storey Building Collapsed in Kenya; due to torrential rain flooding; where properties were salvaged and many people rescued. This is a basic fact and the bitter truth: [124],[125].

Consequently, the way forward, is to seek for help from the advanced countries: (USA, France, Russia and China); to enable us decisively know the National Security Personnel and Military High Ranking Officers, to hold responsible, and accountable; and also be able to verify; whether part of the Billion Dollars mismanaged, is part of the money used to procure the deadly infrasonic weapon; instead of making procurement of the required necessary weapons; for our ill equipped troops, been sent to go and commit suicide; at North Eastern States; in the hand of highly equipped Boko Haram Forces during the immediate past government of President Goodluck Ebele Jonathan.

It should be investigated why the military aircraft did not go to Bornu State at all, between 10.45am and 12-noon; after it was seen in Egbeda and over SCOAN Building between 11.30 am and 11.54 am; but eventually shot down by Boko Haram at Adamawa States. And the pilots killed by Boko Haram as claimed by Boko Haram Fighters.

Most especially, it is needed to confirm the claim by the military that the aircraft was on training schedule Programme, as it concerns the 24 minutes duration of the training Programme; whether that is the standard in the world for Air Force Pilot Trainees period of training, within 8 hours working period in a day.

In view of all the submissions above, the verdict and the recommendation made to prosecute the two structural engineers who were supervising the construction were not tenable, for the following reasons; thus: there were no visible cracks on the basement foundation; the size of iron rods used were appropriate; the quantities used per pillar, beam, and column were adequate; while the type was also not in contention, then the meaning of the term used by the Lagos State Agencies "under-sizing of its beams and columns" is too ambiguous, and not specific enough for consideration for indictment.

Considering the obvious attack against the building by the plane carrying infrasonic weapon, the effect of which crumbled into rubbles and dust the massive concrete structure, then, structural defect can never be said to be the cause of the building collapse.

The witnesses that were selected and their evidences made use of; were mainly Lagos State Agencies, who are the Accusers, the Prosecutors, and also the Judge. Hence no impartial

judgment/justice can be got from such conglomeration of biased minded people. So, also the involvement of the military aircraft, the nature, manner and way the building collapsed, are enough to make their testimonies unworthy for consideration by the corona inquest judicial panel.

Nigeria in position of authority, should try to emulate the US, in relying on our Experts observations and comments. Also, their views should be taken seriously at all times, especially in the area and jurisdiction of their professional calling and expertise. For example, as in this case, when a new angle has been introduced into the investigation from an Expert in the field of military weaponry, in the use of a very rear weapon

"infrasonic": that is very strange to the people of this country, and which its utilization can cause disastrous damage, due to its effect both on human and building concrete structures, at 0>7 Hz and also at 0>20 Hz frequency ranges, within the infrasound spectrum, respectively: [16],[17],[18],[19],[20].

For instance, the worries and concern shown by United State; when it was discovered and known, that, "Russia and China are building hypersonic missiles": is worthy of our nation's emulation. "Admiral Cecil D. Haney, Strategic Command's (Stratcom) Senior Leader, said during remarks at a nuclear deterrent conference that despite arms control efforts, hypersonic weapons are among several threatening strategic trends emerging in the world". He said further. "The advanced weapons capabilities are being proliferated by US adversaries and are becoming increasingly mobile, hardened, and underground, which is further compounded by a lack of transparency". When, asked later about the hypersonic missiles threat, Harney said that the Pentagon is developing capabilities that can be used to counter hypersonic arms":

In view of the above revelations concerning hypersonic missiles' building: by Russia and China, we can see the seriousness of US concerning safety and security. They were not sitting on the fence; they are already developing counter weapons in case of any nation's usage of hypersonic missile: against the country. [113],[114],[115],[116],[117],[118],[119].

But at our own level, considering the present situation at hand, we should try and endeavour to investigate thoroughly, in order to establish the veracity or tenability of whether indeed; a Sonic arm such as infrasonic weapon: was tested and used on the SCOAN building that made it to collapse the way, and manner it did; experts in blast explosive and weaponry; should be invited, for conducting an independent neutral authentic investigation, for confirmation as to whether or not infrasonic weapon: was used. It is then the issue of the military air force aircraft used to bomb SCOAN Building; can be resolved. And the solution to other raised issues in Chief Magistrate Oyetade Komolafe corona inquest judicial panel verdict will follow suit.

Existence And Use of Infrasound Weaponry During The Nigerian

Civil War Within The Military: Recommendations For The Way Forward: To Prevent It Getting To Terrorist Possession:

Moreover, we as a nation should do everything possible to ensure that we prevent such tragic incident occurrence in future, most especially, the usage of infrasonic weapon or any other weapon of killing and destruction within our territory, as it has been confirmed in this paper that some of our military personnel actually received training on utilization of infrasonic during the Nigeria civil war; and coming back home thereafter, it was used by 3rd Marine Commando; at the war zone: [128].

In fact government at all levels in Nigeria, should rise to the occasion and the challenge that the tragic event and occurrence of Friday September 12, 2014 had presented; a situation as destructive and calamitous like this tragic event, should make all hands to be on the deck; which was the primary motive of my writing this paper for publication in a reputable international journal; to enable our leader in the country, to earnestly and seriously work towards, urgent, further thorough and more elaborate investigation, to be conducted by relevant external and internal retired army officers, who are neutral, non-biased experts; very versatile and well knowledgeable in war fare and arms and weapon and weaponry; of sonic and acoustic spectrum inclination; from US, Europe, France, China Russia and Nigeria or even from any affiliate group, with United Nation; most especially, at this time of favourable disposition, of all nations both small and mighty, to our country; because of the type of President God has blessed this country, Nigeria with, presently; in the person and personality of Muhammadu Buhari, the President and Commander in Chief of the Federal Republic of Nigeria. Unless he too is in support of the declared "Jihad & Islamization" programme of Boko Haram as claimed through the confessional statement of the repentant former strong Boko Haram Member: [129]; and PMB as a Moslem, through his recent subtle underground actions as been alleged: [168].

In conclusion, I wish to implore all readers of this write up in my country, Nigeria; for once; to do away with sentiments, religion bigotry, myopic tendencies, biased mind, unconcerned aloofness attitude, jealousy and envy; hatred and holier than thou attitude: This paper is meant for reading by all the people worldwide, and most especially by the Elite in the society who should please, read and peruse the contents of this paper, go through the contents, paragraph by paragraph, with open and unpolluted fair-minded mind, and objectivity, to intimately know and understand the SCOAN, the man of God in the Synagogue, his background, progress, spiritual prowess, several undertaking help and charity programme, his persecution and trials, and the occurrence of the Friday September 12, 2014 tragic and calamitous incident, the vindictive and partiality inclined, indictment verdicts and recommendations, of the Coroner Inquest Investigation Panel, led by Chief Magistrate Oyetade Komolafe.

Moreover in this country, we should realize that a stich in time saves nine, so goes the old adage. Because, if actually such a deadly weapon of killing and destruction had been used, undetected, then there will be nothing to deter, the people behind its utilization, to again use the infrasonic deadly weapon: to attack their target, and who knows who will be the target next time around, which will not augur well for the country. This is a food for thought for all.

And, since the Military top hierarchy agreed with the NAMA personnel; that, their Aircraft actually flew over the building during their scheduled training. But were only in contention with the altitude at which the Aircraft flew over the Guest House Building that housed mostly the foreign visitors, who were in the majority; then thorough investigation of the Military Aircraft, which was reported to be on training schedule programme; needed to be carried out. Questions such as the followings should be given answer to:

Is it a worldwide military practice and standard; for Air Force Trainees to spend only 24 minutes duration for training?

Since when has it become part of the Air Force Trainees, training on a particular building; by flying over the building four times at irregular intervals within the short period of the 24minutes, and when their practice object collapsed, then the flight schedule Programme terminated? The NAMA personnel who gave the permission for the aircraft entering into Lagos Airspace should be asked for more elaborate explanation as to where was the Aircraft coming from, before asking for permission to enter the Lagos Area Airspace.

Why the coincident? The military Aircraft flew over the SCOAN 6 storey guest house building, between 11.30am and 11.54am [112] in the morning on Friday September 12, 2014; while the military reported a missing aircraft that was on a bombing mission to Boko Haram locations, at Borno State between 10.45am and 12 noon; [1],[2],[3],[4],[5] as it left its base in Yola, Adamawa State at 10.45am and to be back to base at 12noon, but it never returned to base? Then, why the coincident as per the day, and per the time, most especially the 10.45am of the Aircraft leaving its base in Yola and 11.30am a military aircraft started its first flight over the SCOAN Building in Lagos?

In this case of SCOAN Guest House Building, why is it that despite the military confession of been on training schedule Programme, that fateful day of Friday September 12, 2014; that took only 24minutes of flying over the collapsed building; the Military was still given clean slate, by Chief Magistrate Oyetade Komolafe and her Judicial Corona Investigating Panel Members? It is on record, that Chief Magistrate Oyetade Komolafe was even the mathematician, that converted the military aircraft flying altitude to numbers of floors of storey buildings; a Judicial Civil Officer who should exhibit caution and neutrality, but suddenly turned to a mathematician for the sake of injustice, she wanted to perpetrate, and which she did

perpetrated; forgetting that the Ultimate Judge, God Almighty; has the final say.

Moreover, we know that the devastating calamity that happened to Job in the Holy Bible was permitted by God; for him to be tempted by Satan; despite being a righteous man. (Job 1: 12 and Job 2: 6): Therefore, it should be known for certain, that, if God Almighty allowed what happened and recorded for our reference in His Holy Book, then it is for our sake, to know that God can allow such calamity of high casualty; as a test and trial for the integrity and perseverance of any of His dedicated servant, that is been used mightily by Him.

For instance, in the Holy Bible in Matthew 2: 12-23; as fore told in Jeremiah 31: 15; several years before the birth of our Lord and Saviour, Jesus Christ; it happened that in Judea, innocent children and babies of two years down were killed by Herod's Soldiers, at his command; despite that it involved also, innocent children and babies from two years old downward; who had never committed any sin at all. Indeed one will like to ask that why should King Herod failed to remember the issue of the birth of another acclaimed King, given birth to within his area of jurisdiction for two years. Or as in the story of Job stated above; as recorded in the Holy Bible; when it is taken into consideration, those who were accusing the man of God in Synagogue; can be compared with the four friends of Job; who were eventually found guilty by God Himself; who ordered them to go and asked for forgiveness from Job, for Job to pray for them.

Then, without any knowledge beyond what God wants him to know, as he later said in his interview in the Read Us SCOAN Magazine: [151], that he can only know what God wants him to know. So, on 27th July 2014; Prophet T.B.Joshua made the pronouncements about the cloud on Nigeria, which he has come back home to witness, how it will despise. And, which means trouble for the country: [152] And when his final utterances at the end of his speech, that day six times was; Father, "Let Your Will Be Done": [152] on July 27, 2014 after rushing home from Columbia Crusade, to witness as directed by God the unfolding cloudy trouble which he said, is as close as his mouth: [152]. He said we should pray to see beyond the crises, to witness the country's greatness.

Although, he was looking at both the political people, killing themselves; and what will happen in year 2014; that, he had at the beginning of the year; called the tough year of crossing the bridge. And, barely 47 days after, had the calamity struck on Friday September 12, 2014; when the Guest house Building Suddenly Collapsed. Actually, he did not failed to do exactly, what he was instructed to do; and, obeying the instruction and directive of God, he directed the installation of the CCTV Cameras, one to face up, towards the sky; watching over the top highest floors, and the other to face down, watching over the bottom and lowest floors; of the 6 Storey Guest House Building;

although, he was not told by God, the purpose of doing what he was commanded to do with both CCTV Cameras, without which by now, he would have been totally condemned as false prophet by all, most especially, his persecutors and antagonists, mainly among his fellow men of God, who never, ever, bothered to inquire through the Holy Ghost, to know actually, whether Prophet T.B.Joshua Ministry and Anointing is from God Almighty [141].

This case study on Prophet T.B.Joshua Synagogue Church Of All Nations (SCOAN); and the collapsed building, bothered on "Security" and "Safety". Hence, the following pertinent questions become imperative:

The pertinent questions that comes to mind concerning Senior Prophet T.B.Joshua, the man of God in Synagogue; his Primary Ministry of preaching, teaching and spreading the Gospel of Jesus Christ, for Salvation of lost Souls, back with signs and wonders; with God Almighty backing by His Power and Authority; his Ministry of giving and philanthropic gesture; the scholarships programme at all level of education; job creation programme; his Ministries of healing, deliverance, prophesy, broken home and broken marriage restoration are: "Why would or should some people want and desire him to be prosecuted, found guilty, and jailed; and consequently his church demolished; the land occupied by SCOAN be confiscated and acquired by Lagos State Government, after the demolition; because of the Collapsed Guest House Building at SCOAN?" This seems to point to an issue of "hidden agenda" being puzzled by the members of the coroner inquest panel and Lagos State Government in collaboration with the principal witness Mr. Ayinde, the immediate past Governor Babatunde Fashola Commissioner for Urban Development and Physical Planning Ministry.

"Why did the Lagos State Government constituted Judicial Coroner Inquest Investigation Panel Members, led by Chief Magistrate Oyetade Komolafe, found it convenient to use to arrive at her indictment verdict and recommendations, only 6 or 8 witnesses' evidences? Who all concluded structural failure as their reason for the collapsed building; which suited the target, aim and objective of the investigation panel members and its master that constituted the panel? This favoured 6 or 8 witnesses evidences were specially selected out of 32 witnesses evidences; by its act and action, jettison and discarding 24 witnesses evidences, that are not in the judicial panel favour, and which can introduce "K-leg" to their envisaged and predetermined verdict and recommendations could not be tolerated and entertained and so, the majority of the evidences were not even mentioned at all.

These evidences that were discarded, unfortunately include, that of crack criminal investigation team of trained crime buster high caliber Police Officers witnesses evidences; that portrayed "Sabotage" or "Saboteur" due to their thorough investigation; and, that of the explosive and weapon expert witness evidence,

that introduced a very crucial security and safety issues into the investigation, that concerned "The application and utilization of Infrasonic or Infrasound weapon to fired radiation with resonance phenomenon to vibrate the structure concrete reinforced building and block wall to crumbling level, that can only be fired by the Aircraft that flew over the building at irregular interval, for four times in sectionalized and segmentation of the building manner. This two crucial issues revelation should have been a serious matter that qualified for calling, for a special constituted expert member's investigation panel, to investigate and examine the grave allegations; as the two suggested new areas, have highly risky security and safety inclination.

"If this was to happen in US or any of the Advanced Countries; will or can the evidence of CIA and FBI Personnel on such case be discarded or jettisoned with disdain and ignominy? Or their suggestions or findings treated with levity? Especially, after they must have conducted thorough investigation, as regards this sort of security and safety risky concern. Or will the suggestion and finding and recommendation of experts; be treated with levity? Even, to the extent of been hostile, and intimidating the Expert Witness with untoward behaviour; as demonstrated by Chief Magistrate Oyetade Komolafe, in her hostile attitude; towards the witness? A witness to be appreciated, commended and praised, for his useful view and suggestion, got condemnation: who should have been encouraged with a promise, and immediate undertaking action, of calling for further investigation, of the two newly introduced areas, that required a touch of experts, by Chief Magistrate Oyetade Komolafe;

Considering the fact that the Nigerian Airspace Management (NAMA) personnel in his testimony said and confirmed that the Military Aircraft flew at 1,100 feet, above SCOAN Guest House Building, an altitude that Chief Magistrate estimated to be 103 floors of a high rising building, and which she was helping the witness to interpret, as an altitude so high to constitute or cause any danger to the collapsed building.

It should be realized, that an impartial empire in a game will not take side, to the extent that biased intention and meaning will be read to his utterances and actions. When actually sound wave speed in iron is 5,120m/s; and 1,100feet = 335m = 103floors according to Magistrate Oyetade Komolafe estimated altitude.

And the Military personnel claim of routing training schedule flights Programme of four irregular interval flights over a particular residential building by a Military Aircraft between 11.30 am and 11.54 am; for just only 24 minutes; and the widely reported case of a Missing Military Aircraft, that took off from Yola, Adamawa State, on a mission to bomb Boko Haram locations in Borno State; between 10.45 am and 12 noon; should be thoroughly investigated, although it was taken for granted by Komolafe panel. And it seems to have no adverse

implication, as far as Chief Magistrate Oyetade Komolafe and her Judicial Panel Members, and Lagos State principal witness, Mr. Ayinde, the Urban Development and Physical planning Commissioner and the Lagos State Government; who the Judicial Coroner Inquest Investigation Panel 10 months Investigation's verdict and recommendation was submitted to; are concerned. It does not bother any of them, so far their aim and objective has been achieved. Therefore, an appeal should be made on this obvious and glaring involvement of the military, who agreed that it was their aircraft that flew over the collapsed building on Training Scheduled Programme; to the appropriate quarter for justice to be seen to be done, by all the parties concerned.

The two crucial issues of Military Aircraft and Infrasonic Weapon; bothered on National Security, which should have not been taken by Governor Babatunde Fashola Government for granted, after receiving the Chief Magistrate Oyetade Komolafe Report; which has no reference whatsoever, to the two issues, as to recommend, consideration for further examination and investigation; by invited experts from any of the Advanced Countries.

It should be remembered, that, the issue of parcel bomb envelope package; that exploded immediately it was opened by Late Mr. Dele Giwa; has remained unsolved, unresolved and unravelled mystery till today; because it happened in a third world country like Nigeria; where hidden agenda, aim and objective of people within the Government is the priority, over security and safety, of the inhabitants of the nation.

The conflicting reports concerning the crashed plane and the shown beheaded pilot, Wing Commander Chimda Hedima, who said he left its base in Yola on September 11, and was captured on September 12, and he has since not seen his colleague since they had a crash, and parachuted themselves to safety, within the Boko Haram occupied area; is another introduced confusing dimension by the Military high command collaborators partner in crime of Boko Haram Militants, for the Jihad declared, and Islamization programme embarked upon; to cover up the atrocity committed by SCOAN Building Bombing.

The Boko Haram leader was shown with the pilot on his knees, purportedly stating in an inaudible and unclear speech, his name, rank and his assigned mission, the crash and capturing, on September 11, 2014, and execution on September 12, 2014 [153]. This well organized and orchestrated widely circulated propaganda of a report from the same military information source, issued out on October 3rd 4th & 5th, 2014; [153] was a calculated attempt, to misinform the public and re-orientate them, that the missing aircraft got missing on Thursday September 11, 2014; instead of on Friday September 12, 2014, as reported initially, through the Director of Defence Information, Maj. Gen. Chris Olukolade in an electronic mail on Sunday September 14, 2014; when he declared the Aircraft Missing.

The initial report about the missing military aircraft [1],[2],[3],[4],[5] was in September on Sunday 14th, just two days, immediately after the occurrence of the Tragic Incident; before it was known that CCTV Camera captured the Aircraft Flying over the Collapsed Building; while the second report for a cover up was arranged between the Boko Haram leader and those top military and security personnel concerned; as shown and reported on the 3rd and 4th October 2014, as disseminated through the internet to the world, by the Military.

The two conflicting information, most especially about the controversial change of the missing aircraft date from 12th September to 11th September should be verified and investigated. Because it seems that, that report of October was disseminated to the mass media after the bubble has busted, through the SCOAN CCTV Cameras Footage, concerning the flight of the Air force Aircraft that flew over the SCOAN Collapsed Building on Friday September 12, 2014; which was from 11.30 am to 11.54 am; after it left its base in Yola, Adamawa State at 10.45 am, but which did not returned to base at 12 noon; as planned, and widely reported in the news media: But reported missing through the Military spokesperson who gave the information to the journalists then through Email.

It can be logically and reasonably deduced, that, Infrasound or Infrasonic Weapon,[16],[17],[18],[19],[20] that utilizes the lowest range of acoustic spectrum frequencies, within the Infrasound Waveforms Ranges; the production and utilization, that is dependent upon a generator that will be carried by an aircraft flying at a slow speed, to fire a massive concrete structure, at the right sound with enough energy to collapse it, upon the occupiers; which could have suited 1st World War (WWI), and the 2nd World War (WWII), due to its limited application, such as it was used on SCOAN Guest House Building; was not a priority of the Advanced Nations of the World, for two possible reasons:

Firstly, because, presently, the Armament war and weaponry developments and production is "About Speed"; and, Secondly, because of looking for "Possibility of En-mass Elimination of Multitude Foot Soldiers Or Ground Army Battalion", with few or non-civilian casualties.

Hence, concerning "Speed"; consider the following mentioned military weapon, that its production and utilization is based on the uppermost range of acoustic spectrum frequencies, within the Ultrasound Waveforms Ranges:

Air-breathing Cruiser: [154]. There have been several design studies to build air-breathing, hypersonic cruising aircraft. "The military has proposed hypersonic cruise missiles, high altitude, high speed reconnaissance vehicles, and piloted global reach vehicles that could deliver cargo or weapons to any location on earth in just a few hours".

However, presently USA; Russia & China have each secretly produced Hypersonic Missile for military use. And is part of the present Armament War Tussle, among them, and fear now is that all these Armament of War Production, can be for the preparation and getting set properly at alert for 3rd World War (WWIII). [155],[156],[157],[158],[159].

But, "On the civilian side, the Orient Express was proposed to carry passengers from California to the Pacific Rim in a few hours. All of these aircraft would cruise at the lower limits of the hypersonic regime, at Mach numbers from 5 to 7".

The broken up of the Soviet Union 15 Republics [160]; and the end of the super power cold war era due to the great radical reforms, to restructure Soviet Union that was embarked upon by Mikhail Gorbachev and his resignation on 25TH December 1991 was responsible for the emergence of the Russia as we know presently. But Russia seems to be in a precarious situation and condition economically initially; and became weakened militarily; until the present leader took over the ruling of the nation.

Hence the emergence of the strong man, President Vladimir Putin as the Russia leader [161]; brought a new Russia that has now forced the other super power (USA) to change its initial perspective about the capability of the Russia nation, as Russia under Putin has shown in Libya, Syria and Ukraine; so that NATO leaders can now reckoned with Vladimir Putin as witnessed in the recent series of meeting between the Barrack Obama and Vladimir Putin and between their high rank officers; at the G20 Summit.

The foregoing will enable us to understand the alignment of allies of both US and Russia, especially amongst the 10 Powerful Nations of the world in this order of strength and power in their readiness for 3rd World War (WWIII): 1.USA; 2.Russia; 3.China; 4.India; 5.UK; 6.France; 7.Germany; 8.South Korea; 9.Turkey; 10.Japan [162].

In conclusion, in this case study paper; the Programme and Timetable of God Almighty for the present world will be highlighted. Presently, in the world today, the fulfillment of what will happen in the future referred to in the Holy Bible is in Daniel 2: 27 – 35; it concerns the thought and vision of King Nebuchadnezzar; his dream; which he could not remembered: [194]. And I quote from Holy Bible New Living Translation (NLT): 27. "Daniel replied, "There are no wise men, enchanter, magicians, or fortune-tellers who can reveal the King's secret. 28. But there is a God in heaven who reveals secrets, and He has shown King Nebuchadnezzar what will happen in the future. Now I will tell you your dream and the visions you saw as you lay on your bed. 29. While Your Majesty was sleeping, you dreamed about coming events. He who reveals secrets has shown you what is going to happen. 30. And it is not because I am wiser than anyone else that I know the secret of your dream, but because God wants you to understand what was in your

heart. 31. In your vision, Your Majesty, you saw standing before you a huge and shining statue of a man. It was a frightening sight. 32. The head of the statue was made of fine gold. Its chest and arms were silver, its belly and thighs were bronze, 33. Its legs were iron, and its feet were a combination of iron and baked clay. 34. As you watched, a rock was cut from a mountain, but not by human hands. It struck the feet of iron and clay, smashing them to bits. 35. "The whole statue was crushed into small pieces of iron, clay, bronze, silver and gold. Then the wind blew them away without a trace, like chaff on a threshing floor. But the rock that knocked the statue down became a great mountain that covered the whole earth". End of quote.

Then the interpretation of King Nebuchadnezzar revealed dream by Prophet Daniel followed from verses 36 – 45. And, I quote: 36. "That was the dream. Now we will tell the king what it means. 37. Your Majesty, you are the greatest of kings. The God of heaven has given you sovereignty, power, strength, and honor. 38. He has made you the ruler over all the inhabited world and has put even the wild animals and birds under your control. You are the head of gold. 39. But after your kingdom comes to an end, another kingdom, inferior to yours, will rise to take your place. After that kingdom has fallen, yet a third kingdom, represented by bronze, will rise to rule the world. 40. Following that kingdom, there will be a fourth one, as strong as iron. That kingdom will smash and crush all previous empires, just as iron smashes and crushes everything it strikes. 41. The feet and toes you saw were a combination of iron and baked clay, showing that this kingdom will be divided. Like iron mixed with clay, it will have some of the strength of iron. 42. But while some parts of it will be as strong as iron, other parts will be as weak as clay. 43. This mixture of iron and clay also shows that these kingdoms will try to strengthen themselves by forming alliances with each other, through intermarriage. But they will not hold together, just as iron and clay do not mix. 44. During the reigns of those kings, the God of heaven will set up a kingdom that will never be destroyed or conquered. It will crush all these kingdoms into nothingness, and it will stand forever. 45. That is the meaning of the rock cut from the mountain, though not by human hands, that crushed to pieces the statue of iron, clay, bronze, silver and gold. The great God was showing the king what will happen in the future. The dream is true, and its meaning is certain" [163]. End of quote.

Presently, it is my opinion that verses 43 and 44 are being fulfilled; through the fulfillment of the new arrangement and emergence of the present 10 most powerful nations of the world: [162].

In the Holy Bible, in Matthew 24: 12 - 14; and I quote: 12. "Sin will be rampant everywhere, and the love of many will grow cold. 13. But the one who endures to the end will be saved. 14. And the Good News about the Kingdom will be preached throughout the whole world, so that all nations will hear it; and then the end will come". End of quote.

All the above stated prophesies as recorded, in the book of Daniel, John's book of Revelations, and Jesus Christ Gospel in Matthew Chapter 24; are being fulfilled simultaneously; most especially when Matthew 24: 14; about spreading the Gospel of Jesus Christ to the entire world is put into consideration, concerning Jesus Christ Anointed servant, Prophet T.B. Joshua; the man of God in the Synagogue. Like the lowly background of Apostle Peter and his fishermen counterparts in the Holy Bible; Prophet T.B. Joshua despite his lowly background, was appointed by our Lord and Saviour, Jesus Christ, and assigned the propagation of His Gospel. Hence, he has no earthly mentor, just like Prophet Moses, Prophet Elijah, Prophet Jeremiah, Apostle Paul and Prophet Isaiah, in the Holy Bible had no earthly mentor. They were all called and anointed by Jesus Christ Himself. And they all had bitter experiences while they went through very grave persecution and tribulations, in the hand of either the government of the day, or by their counterparts, mostly as in the case of Prophet Jeremiah. So, as it was in the beginning so shall it be now and forever more till the second coming of Christ Jesus and the end of the world. The word of Almighty God is very clear on this, because every happening in the world is in accordance with His Programme, Plan and Timetable.

Plan and timetable of God was also revealed to Nostradamus; as he also prophecy or predicted the 3rd World War (WWIII); the second coming of Christ, the end of the earth, and the Millennium peaceful years on the earth during the reign of Jesus Christ [164]. But Jesus Christ said that nobody knows the date, even the Angels in Heaven did not know; only His Father, God Almighty knows the date and the hour of the second coming of His Son and the end of the world.

Consequently God in His Infinite Wisdom, has commissioned Prophet T. B. Joshua, through His Son Jesus Christ, with full anointing of the Holy Ghost, backed by the Power and Authority of God Almighty; to bring about the fulfillment of His plan in Matthew 24: 14, accompanied by signs and wonders; almost unbelievable wonderful Miracles of Healings, Deliverances, Accurate Prophesies, Breakthrough of immense dimensions, coupled with sought out and solved amazing Reconciliations; through past, present and futuristic greatly surprising Revelations of mysterious happenings in peoples' life in Sunday Worship Services; on prayer lines; and in Crusades being held in various nations of the world physically by him; or through Emmanuel TV; or through the Anointing or Morning Water Medium. Surely and certainly, all these must attract envy, jealousy, and hatred; as he has become a threat to the regimented and regulated modus operandi, of his counterpart in Christendom, Body of Christ and in the service of God in His Vineyard. And he, Prophet T.B. Joshua, has even, become, a greater and more serious threat to those whose Programme and Plan, is the "Islamization" of Nigeria and Nigerians by all means and at all cost.

Therefore, for control, check and balances, he must like the olden day prophets in the Holy Bible, be allowed to be tempted by Satan; as it occurred on Friday September 12, 2014; in the Collapsed SCOAN Building.

He has been vilified, and called all sorts of names; some called him Satan, while he was a false prophet to some; and the miracles been done through the name of Jesus Christ, with Holy Ghost manifesting them, are being ascribed to Satan. The same sin committed by Pharisees in the Holy Bible, which Jesus Christ referred to as unpardonable in Matthew 12: 24 – 32, and I quote from Verses 31 & 32: "So I tell you, every sin and blasphemy can be forgiven-except blasphemy against the Holy Spirit, which will never be forgiven. Anyone who speaks against the Son of Man can be forgiven, but anyone who speaks against the Holy Spirit will never be forgiven, either in this world or in the world to come". End of quote. If the Son of God, who is the Word of God, through who the entire universes were created can in Matthew 12: 24 and I quote: "But when the Pharisees heard about the miracle, they said, "No wonder He can cast out demons. He gets His power from Satan, the prince of demons. (Greek Beelzeboul). End of quote. Were the Pharisees not the custodian and interpreter of Mosaic laws in the Old Testament Books of the Holy Bible? And the then God Almighty representatives on earth; just like the Men of God of today; who are castigating His servant, Pastor T. B. Joshua, that they are judging, when Jesus Christ said in Mathew 7: 1 that "Do not judge others, and you will not be judged".

It seems that it has pleased God to put a thorn in Prophet T.B. Joshua flesh, just as He, God Almighty did for and to Apostle Paul, after he has successfully taken and spread the Gospel of Christ, to all the nook and corner of the then world; through his four missionary journeys he undertook. So also, Job was allowed to be tempted by Satan. Therefore, His servant and prophet, Prophet T.B. Joshua case cannot be exceptional; most especially after the wonderful glorious successful Crusade held in Colombia in July 2014 [165]. This was few weeks before the occurrence of the tragic incident of Friday September 12, 2014. In this case study of the tragic event of the collapsed SCOAN Building; the followings have been established:

That the initially speculated mysterious aircraft that flew over the collapsed SCOAN building was actually a Nigerian Military Air Force Jet ; which was claimed to be on training programme schedule flight; which the Nigerian Air Space Agency (NAMA) representative gave air space permission; and which the NAMA personnel said its flying altitude was 1,100 feet = 335 meters; which the learned judge, Chief Magistrate Oyetade Komolafe helped the NAMA personnel to estimate to be equal to 103 floors of a high rising building; the altitude which the learned scholar Judicial Civil Officer claimed, that has nothing to do with the Collapsed 6 Storey SCOAN Guest House Building; [112],[1],[2],[3],[4],[5].

However, I have proved in this paper that their claim is totally wrong; because the "Speed of Sound" through:

Air = 343.2m/s = 1,126ft/s;

Water = 1,484m/s = 4,869ft/s;

Iron = 5,120m/s = 16,798ft/s

But Aircraft Altitude = 335m = 1,100ft

Hence, if 1,100feet = 103 floors (according to NAMA Staff and Chief Magistrate Oyetade Komolafe). Then 6 floors storey SCOAN Building = 64.08 feet high = 64ft.

Therefore, 1100ft is within the firing range of the infrasound radiation just within a second through air above the building. And at a speed of 16,798ft/s; then to propagates through solid iron and concrete of a height of 64ft; then it will take $64/16798$ of 1s = 0.0038 = 3.8milliseconds for sound to transmits through the building, as the Aircraft segmented the building, from the Pilot's left hand side to his right hand side on each flight occasion.

It was obvious that the side of the building, over which the Aircraft first flight took place, started going down first as that was the first weakened side; which has more time in milliseconds allowing for the peak and trough to vibrate at the required resonance by the molecular oscillations to possessed more energy, due to its more duration of time in millisecond, that it has been subjected to; to gain enough energy and power, to crumble the molecular medium, been transmitted by the infrasound waves with enough pressure and force due to the energy involved. Because sound at the range of 0-20Hz possessed silent but deadly latent energy. [16],[17],[18],[19],[20].

That the Nigerian Military personnel; have the knowledge of infrasonic weapon, and infrasound. Which some military personnel have been trained on, and even used during the Nigerian Civil War at the 3rd Marine Commando, as found out by the Daily Times Investigators who made enquiry about the efficacy of the Silent but deadly weapon of destruction. [128]

I wish to quote through extracted portion of Daily Times features desk personnel enquiry of 2015; because of the significance of the information to this paper: And I quote:

"September 12 is around the corner and multinationals and residents of Egbe-Ikotun area of Lagos Mainland will be reliving memories of the collapse of a six-storey building last year, the first of its kind in Lagos that claimed a record 116 lives, mostly South Africans.

In New York City of America, it was called 9/11 (September 11). In the City of Lagos, Nigeria, it became known as 9/12 (September 12). Thirteen years stood between both tragedies with varying devastations that humbled the security, technology and national ego of both countries.

America held terrorists responsible and the al-Qaeda responded, "Right ho!" In Nigeria, the suggestion of a possible terrorist attack sparked off a controversy that pitted the state

government against science, construction engineers and the Church. Lagos State Government wrestled science and technocrats in the building industry up to the judiciary.

The state-organized inquest indicted the engineers and their employers of 'criminal negligence'. As you read this, all parties are warming up for the drama that will unfold in the courtrooms in the near future.

Now, buildings had been collapsing in Lagos and other parts of the country in a stereotype pattern that raised no dust, so why did commonsense/logic clash with science and technology in this particular collapse?

Daily Times features desk took the question to military and security experts who expressed apprehension that infrasonic weaponry may have sneaked into the shores of South-Western Nigeria through insurgents that have terrorized the country for six years, claiming over 15,000 lives to its notoriety.

Retired veteran soldier in the Nigerian army, septuagenarian Michael Oga Oyediran, discussing the reality of infrasound energy weaponry in this part of the world, said he was alarmed at the September 12 incident and how government inquest handled the matter. He spoke at his home at Felele, Ibadan, the Oyo State capital.

"Considering the evidence of those engineers and the scientist, I became very worried because infrasound implosion technology was used in my time during the Nigerian civil war."

A combat captain and blasts specialist in the late General Adekunle-led 3rd Marine Commando during the Nigerian civil war, Oyediran was one of few Nigerian soldiers trained by the British in the blasts and explosives science and technology in 1966. He recalled his first assignment on the field at this exclusive interview.

"Our training in London was extended by three months because we needed time to specialize in some sensitive post-operation radiation control and in the handling of some related equipment".[17],[128]. End of quote.

It has also been established why SCOAN and its General Overseer and Earthly Founder, was the target of campaign of calumny, and name calling by men of God like him; who are the leaders of both CAN and PFN; such as Pastor Enoch Adeboye, Pastor Oritsejafor, Rev. Okotie, Bishop Oyedepo, Pastor Bakare and the others: [14],[15],[128],[141]; which started from mere envy and jealousy and graduated to hatred; due to Prophet T.B. Joshua humble background and rapid progress: [28],[29],[30],[31],[32],[33]; that got them confused and made them, furthermore became flabbergasted also; by the wonders and signs coming from him, which are normally, and usually accompanied by almost unbelievable miracles of healing and deliverances; that God Almighty was performing through him;

in the name of Jesus Christ, and being/been manifested by the Power of Holy Ghost; as promised by Jesus Christ our Lord and Saviour.

This made them to be asking for who mentored him: Forgetting that Prophets Moses, Elijah, Daniel, Jeremiah, and Apostle Paul had no mentor. The Lord was their Mentor. And God cannot be dictated to, as He does as He wishes. My expectation is that these above mentioned men of God, if they still possess the Holy Spirit that empowered them at the beginning of their calling; instead of vilifying Prophet T.B. Joshua, they should have gone to their privacy, and go on their kneel, to pray and ask God through the Holy Spirit; who Prophet T.B. Joshua is. This was done by the other men of God, who the Almighty God revealed to, that Prophet T.B. Joshua is His prophet; such as: Prophet Adewole of Nigeria: [130],[131]; God General Evan. CS Upthegrove of USA: [132],[133]; Evan. Bill Subritzky of New Zealand: [134]; Pastor Benny Hinn of US: [135]; and, Pastor Iginla of Nigeria: [136]; and numerous other men of God worldwide.

In conclusion, considering the various interests; from various different people; such as Chief Magistrate Oyetade who seems to be one of those Christians, that have been filled with many lies, by the CAN leaders concerning who Prophet T.B. Joshua is: [14],[15],[141]; which is responsible for such already biased mind to become hostile and antagonistic in their behaviour, as in the case of Chief Magistrate Oyetade Komolafe, during the panel 10 months sitting, and the panel final vindictive and partial verdict, are all within expectation.

So also Lagos State Governor and his Commissioner for Urban Development and Physical Planning who are of Moslem Religion Faith, and if they also believed in the Boko Haram and ISIS propaganda of "Jihad and Islamization"[129]; then it will take only God to know their inner mind thought, but their outward behaviour through their body language and their utterances seemed to indicate so, because expectation of people, is that the Lagos State Government under Lawyer Babatunde Fashola, should have called for further investigation; due to the new findings of stated Infrasonic Weapon, and the Military Air Force Aircraft that flew over the collapsed building; which the Military claimed to be on Training Programme Schedule; and which NAMA personnel agreed with; and even, put its altitude at 1,100feet; couple with the declared missing Aircraft Jet of the Air Force, on the same day and around the same time; as shown and analyzed elaborately in this paper.

Insistence on demolition, confiscation or acquisition of the SCOAN properties; as being canvassed by Mr. Ayinde, without ever bothering about the two stated aspects that remained shrouded in mystery till now; is worrisome and of grave concern. This is most especially, if and when consideration is giving to the amazing confession, of a strong former Boko Haram Member; concerning the involvement of top government

officials, influential people within, and without the Nigerian Military and Security Agencies; who are Moslems of Northern origin, who believed in the Boko Haram Jihad War and Islamization of Nigeria and Nigerians, and therefore are sympathetic to the course, and are collaborators with Boko Haram Militants: [129].

The potential latent energy possessed by sound, has also been confirmed in this case study of the unpleasant, unfortunate, calamitous and destructive incident. And it will be a most rewarding and illuminating thing; if as recommended in this paper; the services of a fearless, truthful, honest and highly reputable for righteousness and a man of integrity; Major Debo Bashorun (rtd) can be sought and got, most especially as it concerns the Military Aircraft that flew over the SCOAN Building, before its eventual collapse; and the issue of the missing military plane: [147],[148],[149],[150].

I wish to seize this opportunity, to state a significant turning point in Nigeria history, concerning the change of Government at the helm of affairs of Nigeria; in accordance with the prophecy of the man of God in the Synagogue, Prophet T.B. Joshua on three occasions, April 18th and 25th 2010; and February 03, 2013. When on each occasion, he prophesied, that a new party will be formed in Nigeria that will bring the ruling party to its kneel, however, with an additional condition on the last occasion in February, that there will be crises in the ruling party. Whereas in 2010, a prominent and very influential PDP ruling party member said that PDP will rule for 60 years. And also in the same year 2010, the then General Muhammadu Buhari left ANPP to form the CPC almost single handedly. Yet that was not to be the new party the man of God prophesied about, until 2013 when the prophecies become a reality.

However, in my own case, I came to resume work as Project Manager again in another private company on October 4th 2010, in Lagos; when my two companies Bolmic Enterprises registered in 1991 and Mcestbol Limited Registered in 2004, could no more get any contract, because of the stringent conditions and huge non-refundable, financial bidding amount of money involved; and Nigeria factor of connections at high places.

Consequently, I joined SCOAN in 2012 properly, and I was in the church, in the Sunday Worship Service on 3rd February 2013; when the man of God, Prophet T.B. Joshua instructed Emmanuel TV Crew to play back his two prophecies, he gave on April 18 and 25, 2010; where he said that a new party will be formed in Nigeria, which will bring the ruling party to its kneel, although, the then General Muhammadu Buhari in 2010, left ANPP to almost unilaterally single handedly formed the CPC party, but it was not the party that the two initial prophetic messages were about. And in the prophecy of February 03, 2013; he now added a condition to those former prophecies, that there will be crises in the ruling party, and the time that the new

party will be formed has come.

Although the former two of his prophecies were at the time I was in Ibadan where I relocated to when I was Supervising the construction of the Ibadan North NEPA 132/33KV 30MVA Substation in 1989; as the leader of the team of other Engineers and personnel, and as a Project Manager for the company I was working with, El-Mec Engineering Co. Ltd (1988-1991), an off spring of Hivo Engineering Co. Nig. Ltd (1975-1988).

And Hivo was the first wholly owned Nigerian Company to be awarded contract for 132/33/11Kv 60MVA, 45MVA, 30 MVA, 15MVA Transmission Substation Construction, involving Civil and Building Structures Constructions; Gantries and Equipment Steel Support Structures; Electromechanical Equipment Installations; with projects successfully Completed Pre-commissioned internally and Commissioned Professionally and Officially, thereafter. And most a times our projects were being completed ahead of schedule.

I also, supported with all legitimate documents, as I have done for governments of PDP under both former Presidents Chief Olusegun Obasanjo and Dr. Goodluck Jonathan, before him. And I prayed to God, to enable APC party successfully rule this country under PMB then, although I was not a politician; but since Homo Sapiens are borne to be political higher grade animals, I had my sympathy for APC and PMB as the President; because I thought that, he was a kind of Moslem, like our amiable Late President Musa Yar'Adua and Late President Muritala Mohammed, who were a true God fearing rulers; with no secret agenda despite been an ardent moslem. And they were for people welfare and wellbeing not for subtlety and secretly working and doing all things to redefine Nigeria Secular State Status. And smuggling into the Constitution through the leaders of both National Assembly Upper and Lower Chambers, Senate President Bukola Saraki and House of Rep. Speaker Dogara; Muslim Sharia laws and ethics, rule and regulations to compulsorily make everybody a Moslem.

It cannot work and it will not work in Jesus name, Amen. The will of God will be done eventually in this country before the second time coming of our Lord and Saviour, Jesus Christ, and the eventual end of the world, after the peaceful Millennium reign of the Lord Jesus Christ; as stated in the Holy Bible in Matthew 24: 1-51, and as it was also predicted by Nostradamus [164].

Although, because of my initial belief and trust in PMB, I was even prepared to serve under him, and went as far as suggesting to him through Gov. El-Rufai, that I know and respect a lot, for his detribalized acts and actions, as the FCT Minister; the appointment of a nationally and internationally known in the engineering profession and on the field of engineering practice; as knowledgeable, industrious, theoretically and practically sound engineer of over 35 years

of experience, and a former Executive Director of PHCN, who Nigeria has spent a lot of money to train.

Appointing him as the Minister for power would have enable the required necessary change in the power sector to make Nigeria become an industrialize nation; and correct the successive past government mistakes of putting round peg in square hole; which was the bane of our country underdevelopment. Instead of appointing a lawyer as Minister of Power, Works and Housing; three very essential crucial ministries; the professional engineer, should have been made the Minister for Ministry of Power and Steel.

And, as I have been in the Power Sector as an active participant for more than 36 years now in the private sector; as attested to by my now demised mentor Late Engr. Foluseke Abidemi Somolu, in 2010; as he has known me on the field for 30years, he sent a strongly worded recommendation and reference letter then, to my present employer as demanded, as he was one of my listed referees on my CV.

Engr. F.A. Somolu: [175],[176]; our mentor, could have been appointed as NEPA MDCEO, after the former President Obasanjo constituted Consortium of Interviewers, who conducted interview for about 100 interested candidates that applied and called for interview; out of which Engr. F.A. Somolu and Prof. Momoh of Howard University, USA; were two of the four Candidates selected and recommended to President Olusegun Obasanjo.

Amazingly, some days after the picked and recommended four names leaked to Nigerians News Paper media, and followed by their published speculations, that out of the four candidates selected; Engr. F.A.Somolu [175],[176] was the most qualified because he was the only much more experienced practically; as he started his career in the then Niger Dam Authority (NDA), before it was merged with Electricity Corporation of Nigeria (ECN) in 1972, but became effective in 1973: [174].

But, for the best reason(s) only known to President Olusegun Obasanjo then, he discarded and jettisons the list, to appoint Engr. Makoju of Ewekoro Cement Factory as the, then new NEPA Managing Director and Chief Executive Officer (MD/CEO). He appointed Lawyer Bola Ige initially as the Minister for Mines & Power in 1999, and later another Lawyer Liyel Imoke as Minister for Power & Steel also in 2003.

Late Engr. F.A. Somolu mentored me and was the mentor of my suggested candidate for ministerial appointment, as Minister of Power & Steel. But, just like President Obasanjo, President Buhari appointed Lawyer Babatunde Fashola as Minister for Power, Works and Housing. Instead of an experience Power Worldwide Trained Engineer, a former Executive Director in PHCN and Director in Science & Technology Ministry before his retirement. He is a Christian

and a professional to the core, not a politician. Whereas, Late Engr. Somolu, our mentor was from Ogun State, I am from Osun State, and my suggested ministerial candidate is from Kogi State. But, we have known ourselves on the engineering field and belong to several professional Bodies worldwide, for several decades; hence we all know who is who; when it comes to power energy industry or sector in Nigeria; irrespective of whether the service been rendered, as a practicing professional engineer; is public or private sector.

Finally, it is a well-known uncontestable fact; that all, with very few and insignificant scanty exceptional Moslem; irrespective of their tribe and ethnicity; their occupation or professional background; their educational and academic qualifications; believe in Jihad and Islamization of the country of their origin, whether Nigeria, or any other nation in the world that was why Boko Haram was formed; al-Qaeda and ISIS were formed; [129],[168],[169],[170],[172].

But how the struggle and effort to be made to achieve their objective, aim and target goal will be planned, programmed and executed varies from one faction to the other; and each leader of the country where they are ruling, how ruthless or how subtle the battle will be fought all depends upon the zeal and fanatical inclination of the individual leader, group, society, tribe or organization. But for the entire world, there are only two major leaders and ruling countries: Saudi or Iran. In Nigeria, PMB and his group belong to Saudi, and have their allegiance to any current leader or King in Saudi kingdom; while Ibrahim Zakzaky and his group belong to Iran, and have allegiance to any current Supreme Leader in Iran.

Initially in Nigeria both Saudi and Iran Muslim Sects, were in support of Boko Haram, when they were having the belief that only Christian Churches and Believers will be the target for attack. But, it boomerang under President Jonathan, after September 12, 2014 tragic incident at SCOAN. Because all their initial effort to use Chemical Explosives to bomb SCOAN were met with failures, and even deliverances were carried out by Prophet T.B. Joshua in the name of Jesus Christ, and through the power of the Holy Ghost: [24],[25],[26],[27],[129].

In accordance with the prophetic message of the man of God in the Synagogue, Senior Prophet T.B. Joshua after the attack of SCOAN Guest House Building: the attack of each other group started by the killing of VIPs such as the highly referred Emirs, influential people and the attack of the then Gen. Muhammadu Buhari convoy; mosque and motor parks; attacks in Kano City, and other States of Eastern part of the North. [137],[138],[151],[152],[165],[166],[167],[173]. All those who are Moslem Religion members in the country, irrespective of tribe, and profession; should know that Jihad and Islamization plan and program propagation; leading to attacks and bombing of churches, killing of Christians, and wanting to demolish a worldwide acknowledged Christian Religion based Ministry properties and acquire its land, such as that of SCOAN, in order

to stop the spreading of the Gospel of Jesus Christ, or secretly trying to smuggle into the Nigeria Constitution Sharia laws and Moslem doctrines; in order to change Nigeria from a secular to a religion state; will not work; if Nigeria is to remain as one country. So persecution of Prophet T.B. Joshua should stop and the actual cause of Friday September 12, 2014 and involvement of the Nigerian Military highest command and Security Agencies; should be the objective and aim of the Nigerian government. To ensure that Boko Haram or any terrorist group did not have the opportunity to possess and have knowledge of Infrasonic Weapon or any form of Infrasound Weaponry.

The attack that caused the tragic incident of SCOAN Collapsed Building, has thereafter, now made the plan and programme of attacks, initially meant for Christians and Churches only, be extended to moslem, mosques, military barracks, police stations etc.; as each faction was trying to outdo each other; as predicted by the Man of God, Prophet T. B. Joshua.

Presently, the fear of a retired military officer, and other concerned Citizens: [128]; concerning the use of, silent but deadly Infrasonic Weapon and Infrasound Weaponry that was used against SCOAN, was by Boko Haram Militant should be put off in their mind, because Boko Haram was not directly involved in its usage; as it was used within the Nigerian Military through the missing & later claimed crashed Air Force Plane [1],[2],[3],[4],[5] which the military and NAMA personnel agreed and claimed was doing training at the Chief Magistrate Oyetade Investigation Panel at an altitude of 1,100 feet, a claim that I have severally dealt with at various instances in this paper: [112],[165],[166],[167].

Although they later completed the work as planned by killing one of the pilots Wing Commander Chimda Hedima by cutting his head off with an axe: [153]; amidst many confusions of various different conflicting reports emanating from the DHQ and other sources of information dissemination. The Boko Haram successfully through the kneeling pilot changed the date of missing plane and Bornu State Bombing Assignment to Thursday September 11, 2014 and his plan of execution to Friday September 12, 2014; [153]. Why the Military personnel were denying that the pilot brutally killed was not their officer; committee of friends and relatives confirmed he was, and even did a kind of burial rites for him. Hence the title of the Video clip and the article or report written about the unfortunate killing of the pilot brutally by Boko Haram Militant; These are the people the government of PMB is giving amnesty to, murderous Jihadists and blood thirsty cabals, in the name of religion, and service to Allah. This is a confirmation that all Moslems, irrespective of their tribe, profession and status in the society; are supporters of the Jihad and Islamization plan of Boko Haram in Nigeria.

But, our own God, that we worship and sing His praises, is not a blood thirsty and blood sucking God. In actual fact, is the Almighty God, the Most Compassionate, Most Magnanimous,

Most Benevolent, Most Magnificent, Wonderful Father of our Lord and Saviour, Jesus Christ; the merciful, Omnipotent, Omniscience, Omnipresent, Immortal, Awesome, Invisible, Ancient of Days, Unchangeable, Unchallengeable, God. To Him be the Honour and Glory forever and ever. Amen in Jesus Mighty and Precious Name.

Christianity is not a religion, but a relationship between us and the Almighty God, the Creator of heaven and earth and the entire universe. The broken in the relationship link, was responsible for Jesus Christ first coming to the world. And, by His Crucifixion, Death on the Cross at Calvary, and His Resurrection on the third day, His Ascension to heaven and taking of His seat at the Right Hand of His Father, God Almighty, as our Advocate and Solicitor, accomplished the work of the Salvation of Souls. Thank You Lord. Jesus is Lord.

The important message of Prophet T.B. Joshua in Mexico is a pointer to how we can remain in unity and have progress in this country, if we all loved one another. [175]. Love will not allow us to cause calamity and destruction; kill and cause harm; to our fellow human being because of religion or any motive whatsoever. So, let love lead, we should love God and our neighbors as ourselves. It is the greatest commandment given by God Almighty to all Homosapien.
